

CITY OF CLAREMONT MASTER PLAN 2017

CHAPTER 11: IMPLEMENTATION

Prepared by the
Claremont Planning Board
and the
Claremont Planning and
Development Department

Chapter 11: Implementation

Overview

This Implementation Chapter of the Master Plan assembles all goals, objectives, and action items from the other chapters for reference and to track progress in achieving the Vision for the Master Plan.

Cross-Referenced Chapters

Each goal includes cross-reference between chapters based on a detailed assessment of each action item under the corresponding goal. A goal may include actions that have a strong correlation to other chapters. With this knowledge, the Planning Board and City staff can develop better strategies to possibly achieve overlapping goals from different chapters.

The relationship between the subject goal and another chapter, or a cross-reference, is represented by one of the three following symbols:

- – Up to two cross-referenced actions: some correlation.
- ◐ – Three to five cross-referenced actions: moderate correlation.
- – Six or more cross-referenced actions: strong correlation.

Performance Measures

The Planning Board, City staff, and others are encouraged to track the performance measures listed in this chapter. These measures range in difficulty and complexity and are intended as a reference point for progress. Review and amendment of these performance measures by the Planning Board (adding, modifying, or removing) is encouraged. The Planning Board should review these measures annually.

LAND USE	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Preserve Claremont's landscape as a key feature to the community's sense of place and identity.		●	●		○	●	●	●	●	○	
Objective 1.1 Maintain the productive, scenic, and natural features important to the City's rural areas.		○	○			○	●	○			
1. Implement Innovative Land Use (ILU) regulations to encourage low impact residential development.		X	X			X	X				Regulations updated using ILU model ordinances as appropriate
2. Preserve active farms and important agricultural resources for ongoing and expanded agricultural use and promote local agricultural use.							X				- Acres in agricultural use - Number active farms
3. Preserve the aesthetics, productive use, and recreational value of open space and forest lands.							X	X			- Acres City-owned open space and forests open to public - Acres private open space and forests open to public
Objective 1.2 Enhance existing City neighborhoods and downtown districts.		○	○		○	○		○	○	○	
1. Encourage private investment in historic commercial and residential districts to preserve the historic urban landscape.			X								- Number of 79-E and other incentive program applications / approvals - Number of building permits and total est. cost of renovations - Assessed value of all properties in the Historic District
2. Adopt policies to prioritize infrastructure improvements, including sidewalks, streets and underground utilities.		X							X	X	- CIP Projects planned and/or funded - Projects completed
3. Encourage pro-active and innovative land use and building codes to maintain historic buildings and neighborhoods and ensure good quality housing stock for residents.					X	X					Adoption of building codes beyond state-determined minimum requirements
4. Develop Neighborhood Plans with citizen input and participation.		X				X		X	X	X	- Neighborhood plans completed - Number of public meetings
Objective 1.3 Protect public resources for future generations.		○	○				○	○	○		
1. Refer to the Natural Resources Chapter to identify natural resource preservation priorities.							X				

LAND USE (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
2. Maintain and enhance public parks and encourage public access to private undeveloped land for recreation and public enjoyment.			X					X	X		- Acres private open space and forests open to public - Inventory of public parks
3. Maintain a high standard of water quality in the City's rivers and public waterbodies; enhance public access to rivers.		X					X	X			Number of public river access points
4. Encourage use of public spaces for community events and activities.		X									Information posted on City's website
Goal 2 Support positive economic impact of land use and development.		●	●	●	●	●	●	○	○	●	
Objective 2.1 Create land development patterns that have a positive impact on the community and natural resources.		●	○	○	○	○	●	○	○	○	
1. Invite and encourage citizen participation in the land use planning process.											Number of public meetings
2. Strengthen partnerships among public, private, community, and non-profit organizations to increase the effectiveness of community engagement as part of land use planning and development initiatives.		X	X	X	X	X	X	X	X	X	Summary of partner organizations and types of partnerships
3. Review land use policies and regulations to ensure appropriate protections are afforded to natural, cultural, and historic resources.		X			X		X	X			Regulatory amendments
4. Review land use policies and regulations and enhance local permit review procedures to evaluate the likely impacts of new development upon municipal services and economy. Refer to the Natural Resources Chapter to identify natural resource preservation priorities.		X	X				X				- Completion of a community build-out and development impact study - Permit process audit
Objective 2.2 Make existing and future land use benefit the community.		○	●	○	○	●	○	○		○	
1. Enforce existing building codes, land use regulations, and current use laws.											Reported enforcement actions and outcomes
2. Ensure new land development and construction is aesthetically and functionally compatible with surrounding properties.											

LAND USE (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Promote private investment of property through municipal incentives, revolving loan funds, or partnership programs to obtain grant funding.			X		X	X					- Grants awarded to projects in the City - Number 79-E and other incentive program applications / approvals
4. Provide development incentives for the efficient use of existing municipal infrastructure through redevelopment or infill development projects.		X	X	X		X	X			X	- CIP Projects planned and/or funded - Number 79-E and other incentive program applications / approvals - Regulatory incentives adopted
5. Incorporate appropriate innovative land use practices, including renewable energy production, into land use regulations.		X	X	X		X	X			X	- Renewable regulations adopted - Regulations updated using ILU model ordinances as appropriate
Goal 3 Anticipate the need for growth and related land use change.		●	●	●	●	●	●	○	○	●	
Objective 3.1 Identify and incorporate best practices for land use policies and regulations.		○	○	●	●	●	●	○		○	
1. Modernize existing land use regulations to meet the requirements of applicable state and federal laws and regulations.			X	X	X	X	X			X	Land use regulation updates
2. Maintain a regular cycle of evaluating and updating all land use policies and regulations.				X	X	X	X				
3. Plan for future land use patterns in the landscape to meet the vision of this chapter and the Master Plan.		X	X	X	X	X	X	X		X	
Objective 3.2 Maintain a modern municipal infrastructure to support existing and future development.		●	●	●	○	○	○	○	○	○	
1. Refer to the Community Facilities Chapter to identify infrastructure priorities.		X								X	
2. Conduct annual updates to the Capital Improvement Program.		X		X						X	CIP Projects planned and/or funded
3. Make infrastructure maintenance a priority for the City's downtown, core neighborhoods, and principal commercial areas.		X	X	X	X	X	X				- CIP Projects planned and/or funded - Projects completed
4. Plan for deliberate expansion of municipal water and sewer service in a pre-determined manner; emphasize maintenance of the existing networks.		X	X	X		X	X				Municipal utility asset management plan
5. Enhance downtown streetscapes for safe travel for vehicles, pedestrians, and cyclists.		X	X						X		- CIP Projects planned and/or funded - Streetscape improvements completed

COMMUNITY FACILITIES	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Upgrade and stabilize the current water and sewer infrastructure.	●		○	○			○		○		● Regulations updated using ILU model ordinances as appropriate
Objective 1.1 Identify, prioritize and schedule repairs and replacements in the old city sewer lines.	○		○								
1. Use cameras to identify failing sewer lines and areas of infiltration/leakage in the system.											● Linear feet of sewer line inspected
2. Reconstruct sewer infrastructure on Main Street from Opera House Square to Union Street.	X	X	X								● CIP projects planned ● Project complete
3. Prioritize sewer replacement needs throughout the city and particularly on Charlestown Road, Summer Street, Opera House Square up Pleasant Street, and Bank Avenue.											● Sewer asset management plan ● CIP projects planned ● Project complete
4. Upgrade wastewater treatment plant and pump stations.	X										● Regulations updated using ILU model ordinances as appropriate
5. Support the Claremont Hazard Mitigation Plan, giving special consideration to sewer infrastructure and contamination prevention.											● Regulations updated using ILU model ordinances as appropriate
6. Update the Capital Improvement Program annually to reflect current priorities.											● Regulations updated using ILU model ordinances as appropriate
Objective 1.2 Identify, prioritize and schedule repairs and improvements in the city water system.	○			○			○		○		
1. Upgrade the line size from a 10" to a 16" pipe to increase volume from Whitewater Reservoir to Rice and Dole thereby lowering operation costs from not having to utilize the Sugar River pump station.				X							● Linear feet of water line inspected
2. Repair Rice Reservoir & Whitewater Reservoir spillways.											● CIP projects planned ● Project complete
3. Repair concrete wall at Dole Reservoir.											● CIP projects planned ● Project complete
4. Continue the replacement of old lead service lines.									X		● Properties with improved lines
5. Address drainage issues on Charlestown Road that are the result of inadequate water line sizes and faulty collection systems in surrounding neighborhoods.											● Drainage plan ● CIP projects planned ● Project complete
6. Reconstruct water infrastructure on Main Street from Opera House Square to Union Street.											● Project complete

COMMUNITY FACILITIES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
7. Reconstruct water infrastructure on Main Street from Opera House Square to Union Street.											Project complete
8. Prioritize water line replacements or improvements throughout the city, particularly at North & Main Streets, lower Sullivan Street, Summer Street, Woonsocket Avenue, Durham Avenue, and Veterans Park Road.											- Underground utility asset management plan - CIP projects planned - Project complete
9. Continue water meter replacement with radio read.											- CIP projects planned - Project complete
10. Upgrade water treatment plants and pump stations											- CIP projects planned - Project complete
11. Update the 1991 Source Water Protection Plan.											Update complete
12. Support the Claremont Hazard Mitigation Plan, giving special consideration to water supply security and infrastructure (drought, flooding, dam failure), as well as culvert and drainage improvements.							X				- CIP projects planned - Project complete
13. Update the Capital Improvement Program annually to reflect current priorities											CIP update complete
Objective 1.3 Meet state and federal regulations.											
1. Fulfill new requirements for National Pollutant Discharge Elimination System Permit (NPDES) for the wastewater treatment plant.											- CIP projects planned - Project complete
2. Complete sewer storm water separation on Ascutney Street.											- CIP projects planned - Project complete
3. Track pending state or federal rule changes and incorporate anticipated cost of compliance into the Capital Improvement Plan.											CIP projects planned
Goal 2 Maintain municipal facilities to minimize barriers to access, protect investment, and ensure acceptable service levels to the public.	●		○	○	○		○	○	○	○	
Objective 2.1 Prioritize timely improvements and maintenance of municipal buildings and infrastructure to ensure public safety and compliance with N.H. fire and building codes and federal ADA accessibility standards.	○				○		○	○	○	○	

COMMUNITY FACILITIES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Continue ADA accessibility projects at City Hall complex, including the ramp at the Police/Court entrance, accessible bathroom facilities, City Council Chambers and other accessibility needs for the building.									X	X	• CIP projects planned • Project complete
2. Repair City Hall roof and undertake other upgrades for public safety.					X						• CIP projects planned • Project complete
3. Upgrade police communication systems and associated electrical systems to prevent failure.											• CIP projects planned • Project complete
4. Follow annual and 5- year maintenance and repair schedule at the Sawtooth parking garage; share costs on a per space basis with leaseholders.											• CIP projects planned • Project complete
5. Continue maintenance plan for the Claremont Savings Bank Community Center and other Parks and Recreation facilities.							X	X			• CIP projects planned • Maintenance plan
6. Continue road and sidewalk maintenance. Provide more detail in the Transportation Chapter of this Master Plan.	X								X	X	• CIP projects planned
7. Include essential equipment in the Capital Improvement Plan.											• CIP projects planned
8. Respect the historic character of the City's municipal buildings when maintenance of them is undertaken.	X				X						• CIP projects planned
Objective 2.2 Identify and pursue opportunities to improve energy efficiency and utilize renewable energy technologies in municipal facilities.	○	○	○	○							
1. Continue to undertake energy efficiency in municipal buildings including weatherization and lighting to lower operational costs.				X							• Energy cost savings • CIP projects planned
2. Seek grants, public-private partnerships, or other financing opportunities to install renewable energy facilities to reduce municipal energy consumption costs.	X		X	X							• Grants and other funding sources identified, received • Partner organizations • Energy cost savings • CIP projects planned

COMMUNITY FACILITIES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 3 Address established unmet needs for services and/or overcome barriers to public access for services in facility improvement or replacement projects.			○	●	○		○		○		
Objective 1 Maintain critical service facilities for public safety and emergency response.											
1. Repurpose existing police department space to accommodate current and future staffing needs, including improvements in the Communications Center, locker rooms, shower areas, bathrooms, and the booking & processing area.											• CIP projects planned • Project complete
2. Replace or upgrade fire department storage barn.											• CIP projects planned • Project complete
Objective 2 Strive for high quality facilities that support community amenities and cohesion.				○			○		○		
1. Upgrade Fiske Free Library critical service needs, including shelving, painting, flooring and air conditioning.				×							• Maintenance plan • CIP projects planned • Project complete
2. Expand community outreach of library services, particularly to the elderly and children.									×		• Number of elderly and children participating
3. Consider expansion of recycling. Continue participation with the Upper Valley Lake Sunapee Regional Planning Commission on hazardous waste collection.				×			×				
Objective 3 The city administration will consider studies of city owned buildings and costs of operations as needed.			○	○	○						• Facilities study
Goal 4 Actively seek grant funding for community facility projects.	○		○	○	○			○	○	○	• Grants received
ECONOMIC DEVELOPMENT BUSINESS RETENTION/EXPANSION AND BUSINESS RECRUITMENT											
Goal 1 Encourage the retention and expansion of existing businesses and focus business attraction efforts on diversification as well as existing business clusters.				○							

ECONOMIC DEVELOPMENT BUSINESS RETENTION/EXPANSION AND BUSINESS RECRUITMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 1.1 Continue business visitation program on an annual basis.											• Number of businesses visited
Objective 1.2 Identify emerging business clusters that might provide opportunity for business recruitment.											• Complete input/output study
Objective 1.3 Continue to identify expansion or new construction opportunities for City or Claremont Development Authority owned properties.											• Number of businesses expansion per year, including relocation, new equipment, updates or construction
Objective 1.4 Update and digitize city business recruitment packet.											• Packet digitized
Objective 1.5 Update marketing plan annually to recognize changes in the market, analytics or the media mix. Continue and expand use of multiple methods on the I-91 corridor in Vermont, western Massachusetts, Connecticut, NY, NJ and Quebec.											• Marketing Plan
Objective 1.6 Continue to maintain partnerships and provide finance information or incentives in the promotion of Claremont as a location.											• Number of City and/or partner meetings with business in promotion
Objective 1.7 Formulate an economic development training schedule for all staff in the Planning & Economic Development Department.											• Training schedule
Objective 1.8 Educate and promote energy efficiency/cost savings programs or grants to local businesses.				○							• Number of contacts with business with energy information/incentives
Goal 2 Fully integrate education and workforce programs to provide equitable opportunities for Claremont residents and their children.											
Objective 2.1 Establish a long-term professional working group that includes representation from municipal, school, state, colleges and the business community to meet short and long term goals for career opportunities, education/training and workforce development.											
1. Identify partners and constituency representation.											• Partner organizations
2. Establish mission and goals.											• Mission and goals complete

ECONOMIC DEVELOPMENT BUSINESS RETENTION/EXPANSION AND BUSINESS RECRUITMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Identify outcomes and responsibilities.											Action items
4. Set quarterly meeting schedule.											Number of meetings per year
Objective 2.2 Work with the school district to ensure that career guidance and connections for local opportunities are worked into student programming. This should include an annual career day at the school with local employers and colleges.											- Annual career day - Number of meetings with school district
Objective 2.3 Seek grant funding opportunities to strengthen programming and workforce initiatives as part of an integrated learning system.											- Grants received - Purpose and amount of funding
Objective 2.4 Support Pathways to Success and other similar post-secondary opportunities for students attending Stevens High School. Pathways to Success is defined as concurrent college and high school credit programs designed to achieve academic and career success.											Number of students in dual programs
Objective 2.5 Evaluate existing systems for opportunities to integrate adult education and career readiness to avoid duplication and maximize existing classrooms, equipment, and instruction. These systems may include existing secondary and post-secondary and technical programs as well as MakerSpaces or business incubators.											- Number of adult education programs - Community information on existing programs - Any integration between school, college, Makers, & other partners
Objective 2.6 Encourage private companies to consider apprenticeships, internships or employer contracts as a method to increase workforce opportunities											- Number of companies - Number of people participating
Goal 3 Develop tactics for retaining and attracting young people and supporting stay work initiatives.	○	○				○		○		○	
Objective 3.1 Invite the school district to incorporate an education master or strategic plan chapter from the school district into the Claremont Master Plan.	○										School and city plans integrated
Objective 3.2 Investigate and evaluate alternative options to support public education efforts, including private sector partnerships, non-profit collaborations and alumni support.											- Partner organizations - Number of investments, Total investment

ECONOMIC DEVELOPMENT BUSINESS RETENTION/EXPANSION AND BUSINESS RECRUITMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 3.3 Create new targeted marketing attracting young individuals to the city.											Marketing Plan
Objective 3.4 Develop a plan to identify incentives and supplement childcare/daycare and family care with affordable programming at the library, parks, schools, and other agencies in the community. Support pre-kindergarten early education programs.		○						○			- Number of programs, types of programs - Number of pre-school children attending
Objective 3.5 Integrate goals and objectives from the housing, transportation and parks & recreation chapters of this Master Plan.						○		○		○	
Objective 3.6 Over the next five years increase visibility and creative economy (Science, Technology, Engineering, Arts, Math/STEAM) opportunities.											- Marketing Plan - Number of new programs
1. Collaborate with for-profit, non-profit, and governmental entities providing programming and education on the creative economy.											- Partner organizations - Number of regular meetings - Identify creative economy outcomes
2. Market STEAM programming and educational events.											Number of education or marketing bulletins, news or ads
Goal 4 Quantify and qualify Claremont's existing infrastructure needs and capacity for anticipated annual growth.	●	●		○	○	○				●	- Community build-out analysis - CIP projects planned - Project(s) complete
Objective 4.1 Survey the twenty largest employers to identify met and unmet needs in power, water, sewer, broadband and transportation.		○		○						○	Local business survey
Objective 4.2 Evaluate the role of public transit in Claremont for employment purposes.										○	
1. Undertake an employer/employee survey to identify public transit needs and gaps in service for employees, either in the service area or local and regional level. Request NH Employment Security data on transit needs in Claremont for workers.										X	Employer/employee transportation needs survey
2. Identify resources or investigate opportunities to fill existing gaps.											- Resources identified - CIP projects planned - Project(s) complete
Objective 4.3 Integrate recommendations and goals from the Community Facilities and Transportation chapters into this chapter of the Master Plan.	○	○				○				○	

ECONOMIC DEVELOPMENT BUSINESS RETENTION/EXPANSION AND BUSINESS RECRUITMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Maintain existing infrastructure to avoid declines in service.	X	X								X	- CIP projects planned - Project(s) complete
2. Build commercial and residential growth patterns into new or expanded service considerations.	X	X				X				X	- CIP projects planned - Project(s) complete
Objective 4.4 Update broadband and wireless capability annually and participate in the University of New Hampshire mapping and planning program.	O	O									
1. Increasing percentage of home offices and residents telecommuting should be evaluated in terms of location and broadband/wireless access. Such uses should be encouraged in the zoning ordinance.	X	X									- UNH broadband service survey updates - Regulatory amendment(s)
Objective 4.5 Monitor and assess possible technical innovations that improve efficiency and operations costs.		O		O						O	- Number of innovations identified - Number instituted
Goal 5 Incorporate all recommendations from the Housing chapter of this Master Plan. Improvements to existing housing options and additional housing development will be needed to satisfy workforce needs in Claremont.						O					
ECONOMIC DEVELOPMENT INNOVATION/ENTREPRENEURSHIP AND SMALL BUSINESS DEVELOPMENT											
Goal 1 Provide services and support to small and start-up businesses and the partnerships necessary to sustain that support. (technical assistance; business space; financial assistance; good attitude).	●	●		O	●		O			O	
Objective 1.1 Technical assistance, education and training.											
1. Introduce start up and small businesses to the NH Small Business Development Center and associated technical assistance programs and follow through on needs as they arise.											Number of businesses served

ECONOMIC DEVELOPMENT INNOVATION/ENTREPRENEURSHIP AND SMALL BUSINESS DEVELOPMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
2. Partner with River Valley Community College, University of New Hampshire and the Dartmouth Entrepreneurship Network to provide program and experiential learning opportunities for entrepreneurs.											• Number of programs provided in Claremont
3. Identify and connect other local and federal partners as possible.											• Partner organizations
Objective 1.2 Access to capital and financing alternatives.											
1. Provide small loans through the Claremont Development Authority revolving loan fund.											• Number of loans
2. Continue partnerships with regional development organizations, the SBA and state business finance authority.											• How frequently utilized
3. Educate on equity as well as debt financing if appropriate.											• Number of businesses served
Objective 1.3 Workspace and real estate needs.	○	○			○						
1. Partner with Claremont MakerSpace for initial phase start up rental space.											• Number of start up rental units
2. Continue renovation, lease, sale and lease to purchase options through the Claremont Development Authority.	×	×			×						• Tenant summary
3. Partner with other local developers or realtors to identify current inventory.	×				×						• Number of vacant buildings/storefronts occupied
Objective 1.4 Infrastructure must meet or stay ahead of demand.	○	●		○	○						
1. Encourage growth on existing water/sewer service lines.	×	×		×	×						• Number of units added • Regulatory amendment(s)
2. Continue to upgrade broadband/wireless service to serve new and small business development.		×									• Additional service connections • Service capacity
3. Assess technology platforms so that the city is on the leading edge of technology advancement to promote livability.		×									• Platforms and service summary
4. Continue to seek opportunities to lower power costs through energy efficiency programs and green power production.	×	×		×							• Number of businesses informed • Number of businesses utilizing renewable technology, efficiency upgrades

ECONOMIC DEVELOPMENT INNOVATION/ENTREPRENEURSHIP AND SMALL BUSINESS DEVELOPMENT (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 1.5 Provide information on permits, zoning or other local, state or federal requirements.	○				○		○			○	
1. Continue the existing city structure of business one-stop shop to foster convenience and support.											
2. Work closely with other city and state departments involved in permitting requirements.	✗				✗		✗			✗	Number of businesses or housing units - new or rehab
3. Reduce disincentives and barriers to business entry.											Regulatory/Policy audit
Objective 1.6 Share entrepreneurial success stories.											
1. Partner with Claremont MakerSpace, the Greater Claremont Chamber of Commerce and West Claremont Center for Music and the Arts to provide networking events to bring entrepreneurs together.											Number and types of events
2. Public relations and marketing of success stories. Include better utilization of website to inform residents of these stories.											Maintain media kit annually
Goal 2: Create a positive business climate and community attitude.											
1. Conduct a yearly census of local businesses to identify impressions of the business climate and the services being offered.											Local business survey
Goal 3: Increase academic resources.											
1. Survey area companies (including neighboring communities) to qualify and quantify education demands.											Regional employer survey
2. Collaborate with River Valley Community College, Granite State College, Dartmouth College and the University of New Hampshire to develop extension programs to meet survey demands.											- Number of programs - Type of programs
3. Establish interstate extension program to service local VT and NH demand.											Extension program status

ECONOMIC DEVELOPMENT CITY CENTER	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Provide information, education, partners and incentives, if available, to continue upgrades to existing buildings, adaptive reuse, and brownfield remediation and support for building owners.	●				●	●			○		
Objective 1.1 Because every building and/or (future) improvement project is unique, building owners and the city should have a continuing working relationship for best outcomes.	●				●	●			○		Building owner contact list updated annually. Number of contacts.
1. Map total square footage, existing tenants, vacant square footage in the mixed - use district and update annually.	X				X	X					- GIS database - Map update
2. Support marketing the City Center to businesses as well as customers.											Marketing Plan
3. Identify appropriate temporary uses, such as pop-ups, farmer's market, historic photos, art, to utilize empty space and/or make windows more visually appealing. Support façade improvements with Claremont Development Authority revolving loan funds.					X						- Number of vacant spaces impacted - Summary of temporary uses - CDA funds dispersed - Façade improvements completed
4. Inform property owners of incentives appropriate to their needs, for example, NH RSA 79-E, or federal historic tax credit programs.	X				X	X					- RSA 79-E and other incentive program applications and/or approvals - New businesses located in City Center
5. Facilitate meetings with building owners, business tenants, and the Historic District Commission to identify common goals and better processing of Certificates of Appropriateness. Support the goals and action items laid out in the Historic Resources Chapter of this Master Plan.	X				X	X					- Number of meetings. - Types of educational material. - Number of owners or tenants receiving information.
6. Continue to evaluate the zoning ordinance to ensure it supports historic and current uses.	X				X	X					Regulatory amendment(s)
7. Inform building owners of energy efficiency programs and encourage them to support city energy goals.						X					Owners contacted
8. Inform building owners and developers/tenants of any available funding, information resources or permitting required for brownfields remediation, including lead and asbestos.	X				X	X				X	Owners/developers/tenants contacted

ECONOMIC DEVELOPMENT CITY CENTER (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
9. Educate building owners on state codes and encourage their collaboration on the property maintenance code.											Number of buildings with code upgrades
Objective 1.2 Support mixed use rehabilitation to enhance housing opportunities in the City Center.						○					Number of residential units
1. Create a residential parking plan for the mixed - use district for additional overnight demand that will be compatible with daytime commercial uses.						X					Plan created
Goal 2 Maintain public infrastructure, including sidewalks, landscaping and parking.	●	●				●		○	○	●	
Objective 2.1 Clean and neat. Maintain a beautification program that is consistent and a partnership of public, private and non-profit sectors.	○	●						○		○	
1. As part of public works asset management program create a sidewalk and street inventory and maintenance schedule. This will continue city center identified projects that were identified as part of that process.	X									X	Inventory created
2. Inventory trees and streetscape and create a maintenance plan. Support road and sidewalk maintenance plans as outlined in the Community Facility Chapter.	X	X								X	Inventory created.
3. Replace trees with appropriate species in areas where original plantings were not successful or in alternative locations so that there is a green canopy.											- Tree management program - CIP projects planned - Project(s) complete
4. Educate the public with homeowner FAQ's on trees and tree maintenance, particularly when they border rights of way.											FAQ sheet
5. Identify partners and convene semi-annually to discuss special projects or seasonal beautification programs, including flower planting, special lighting, banners or other City Center projects.		X						X			- Partner organizations/residents - Semi-annual meetings - Project(s) complete
6. Create an opportunity for private donors to participate with a special city fund and the ability to identify their support.											- Program creation - Number of donors - Level of funding
7. Identify key contacts for trash pick-up, graffiti, or safety related issues.		X									- Contact list - Dissemination of list

ECONOMIC DEVELOPMENT CITY CENTER (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 2.2 Incorporate recommendations from the city parking study into city ordinances and make appropriate changes to improve and maintain the public infrastructure.	●	●				○			○	●	
1. Create maps and directional signage.											• Parking maps created • Directional signage installed
2. Properly sign parking and crosswalks.											
3. Create a residential overnight parking plan for the city center.						×					• City Center Parking Plan
4. Enforce the parking ordinance.											• Parking enforcement officers
5. Adopt the shared parking ordinance.	×									×	• Regulatory amendment(s)
6. Ensure safe walking throughout the district from parking to destination.									×	×	• Sidewalk and lighting conditions
7. Adopt a Complete Streets Plan.	×	×								×	• Plan complete
8. Continue to upgrade crosswalks and sidewalks for ADA accessibility.		×								×	• CIP projects planned • Project(s) complete
9. Prioritize creation of a parking plan for the downtown, including overnight residential parking and long - term capitalization of municipal parking facilities.	×	×				×				×	• City Center Parking Plan • CIP projects planned
Objective 2.3 Adopt by reference recommendations from the Housing and Transportation Chapters of this Master Plan.						○				○	• Benchmark from chapter goals.
Goal 3 Create a city center identity or climate that draws residents and people from throughout the region and bi-states to enjoy.	○				○			○			• Branding. Marketing plan.
Objective 3.1 Promote, map and sign significant historic destinations. Incorporate recommendations from the Historic Resources chapter of this Master Plan.					○						• Map created • Informational signs installed
Objective 3.2 Create a cultural arts district that supports public art and entrepreneurship.											• Cultural Arts District created

ECONOMIC DEVELOPMENT CITY CENTER (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Coordinate entrepreneurship training with the Claremont MakerSpace, NH Small Business Development Center and River Valley Community College.											• Training programs • Partner organizations
2. Coordinate with the arts community and building owners to utilize empty storefronts for visual art display.											• Number of storefront displays
Objective 3.3 Expand public, non-profit and private partnerships to maximize the economic potential of entertainment and special events.	○							○			• Partner organizations • Number of special events
1. Streamline the process for doing events and create a checklist and information sheet for interested applicants.											• Policy/Ordinance amendment(s) • Checklist and info sheet
2. Create a parking map.	X							X			• Parking maps created
3. Create a master calendar for applicants so that events can be better coordinated.											• Calendar created
4. Ensure special events are posted on the NH Tourism calendar.											• Events posted
Objective 3.4 Update Visitor Information.											
1. Promote tourism at the NH and Vermont Visitor Centers.											• Creation of information card • Dissemination of card to visitor centers
2. Create a tourism social media presence.											• Created and administered
3. Update regularly Visitors page and events on city website.											• Number of updates
ECONOMIC DEVELOPMENT ARTS AND CULTURE											
Goal 1 Create a Claremont Arts Council.											• Claremont Arts Council created
Goal 2 Create a Community Asset Map (resources inventoried and mapped) of the arts.		○						○	○		• Arts and culture asset map
Objective 2.1 Identify key assets for the five - year plan along with action items to strengthen or expand their impact.		○						○	○		• Summary of assets • Measure impact

ECONOMIC DEVELOPMENT ARTS AND CULTURE (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Broaden the regional pull for Claremont and Claremont Opera House events.											Marketing Plan
2. Cross book events, activities and local business participation for regional leverage. Include city schools in arts and culture events.		X						X	X		- Partner organizations - Number and type of activities
Objective 2.2 Identify assets missing from the local economy along with action items to fill those gaps.											- Summary of missing assets - Implementation plan to address gaps
Goal 3 Work with Americans for the Arts, the NH State Council on the Arts and Department of Cultural Resources to measure the economic impact of the arts in Claremont.		○						○			
Objective 3.1 Measure existing conditions and identify tools for measuring future impact.		○						○			Economic impact study.
Objective 3.2 Adopt realistic benchmarks for growth in the arts and culture sector.								○			Benchmarks may include: job creation, investment \$, economy diversification, improve property values.
Goal 4 Collaborate with the city, schools, arts organizations, historic district commission and Claremont Parks and Rec to support public art, private partnerships, and creative recreation and tourism.	○	○						●		○	- Types of events - Partner organizations
Objective 4.1 Support and promote activities that will drive visitors into Claremont.		○						○			Attendance numbers
Objective 4.2 Coordinate with local businesses for joint marketing opportunities.											Coordinated marketing - amount and type.
Objective 4.3 Ensure that major events are on the NH Tourism, state media, and the City's website calendars.								○			Check NH tourism website at least monthly.
Objective 4.4 Continue to market Claremont with the state and film industry. Identify venues for film arts and festivals to highlight these productions and others.											Number of films.
Objective 4.5 Design public spaces and streetscapes for creative activities and/or artistic excellence.	○	○						○		○	- CIP projects planned - Project(s) complete
Objective 4.6 Feature performances of local professional musicians in public spaces.								○			Types an number of event

ECONOMIC DEVELOPMENT ARTS AND CULTURE (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 5 Engage with the business community for collaboration and partnerships. Make things happen in the City Center.											Summary of engagements, investment and outcomes.
ENERGY											
Goal 1 Encourage widespread understanding of and support for energy consciousness throughout the City of Claremont.	●	○	●			●				●	
Objective 1.1 Create a City of Claremont Energy Committee.	○	○	○			○					Committee created
1. Empower the Energy Committee to conduct project work in the community, especially work that encourages skill-building around energy issues.	×	×	×			×					Public information sessions
Objective 1.2 The City will become a resource for energy issues, and will be connected to other stakeholders around such issues.	○	○	●			○				●	
1. The Planning and Development Department should keep Claremont citizens, businesses, and nonprofit agencies informed of relevant local, regional, and national energy incentives and initiatives. This should be achieved using all available media resources.	×		×			×				×	Informational bulletins
2. The City should participate in local, regional, and statewide energy forums and roundtables to study best practices, form regional energy alliances, and share information gained with the public in order to support awareness and a transition to sustainable practices city-wide.	×		×			×				×	Events attended by City representatives
3. The City should encourage collaboration among public and private agencies to promote sustainable energy production and energy efficiency for citizens and business owners.											- Partner organizations - Types of promotion

ENERGY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
4. The City should stay abreast of emerging technologies in the fields of energy efficiency and production, waste disposal, composting, recycling, and energy use monitoring, and push for the adoption of these technologies.		X	X							X	
Goal 2 Encourage municipal, commercial, and private efforts to promote local, sustainable energy production that enhances the community and quality of life for its residents and businesses.	●	○			○						● Number and types of projects
Objective 2.1 Amend ordinances and technical review procedures to encourage sustainable energy production.	●				○						● Ordinance amendments
1. Encourage on-site supplemental renewable electricity generation by incorporating amendable zoning language into City ordinances for such projects.	X				X						● Regulatory amendment(s)
2. Encourage medium-scale commercial renewable energy generation by incorporating amendable zoning language into City ordinances for such projects. City officials should seek public input when crafting language to govern siting rules for medium-scale commercial renewable energy production, and should take into account the specific attributes of each type of production mechanism when crafting said language.	X										● Regulatory amendment(s) ● Number of public meetings
3. The City should rewrite zoning ordinances to allow for significant public input on any large-scale fossil fuel or biomass energy production in the City, in recognition of the lack of public support for such facilities.	X										● Regulatory amendment(s)
Objective 2.2 Provide incentives for small-scale, secondary use renewable energy generation projects that are in keeping with the above-mentioned zoning changes.	○	○									● Incentives utilized ● Number of projects

ENERGY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Adopt RSA 72:61-72, which will permit the City to offer a property tax exemption for small-scale renewable energy generation projects, such as solar panels and small wind-powered energy systems. Objective 2.3 The City should continue to explore opportunities to create its own power through renewable energy projects.	X	X									- Adoption of RSA 72:61-72 - Projects complete
Goal 3 Develop policies, regulations & best practices to promote energy-efficient renovation, construction, and development in the City's built environment.	●	●	○		○	○	○		○		- CIP projects planned - Projects complete
Objective 3.1 Invest in infrastructure upgrades to enhance energy-efficiency and long-term cost savings.		○									Enforce energy chapter of the building code
1. In recognition of the success of the LED conversion for the City's streetlights, the City should audit City-owned buildings and explore LED upgrade options for those buildings.		X									- Lighting audits - CIP projects planned - Project(s) complete - Energy and cost savings
Objective 3.2 Make city facilities energy-efficient through an ongoing process of monitoring, assessment, improvement, and further monitoring.		●			○						Ongoing - annual summary.
1. Recognizing the importance of balancing the historic nature of many City-owned buildings and the need for improved energy efficiency, the City should seek additional grant opportunities like the LCHIP grant used to inventory City Hall, and present workable energy upgrades.		X			X						- CIP projects planned - Project(s) complete
2. The City should audit its water pumping infrastructure and explore opportunities for energy efficiency upgrades.		X									- Asset Management Plan - Energy audit - CIP projects planned - Project(s) complete
3. The City should utilize the Environmental Protection Agency's Portfolio Management Software (or like software), which allows users to track energy spending and use.		X									EPA Portfolio Manager utilization

ENERGY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 3.3 Development projects in the City should consider energy efficiency and sustainable development, whenever possible.	●	○	○			○					
1. The City should direct its development review staff to ask questions about energy efficiency during technical review, to be knowledgeable about solutions to issues raised, and seek expert consultation when necessary.	X		X			X					Energy efficient development practices
2. City staff should encourage the Planning and Zoning Boards to ask questions related to energy efficiency and conservation.	X		X			X					Yes/no
3. City staff and boards should encourage Dark Sky Community best practices when reviewing development projects.	X										Adoption of Dark Sky guidelines
4. The City should explore the adoption of C-PACE2, through RSA 53-F, which would allow the city to establish special assessment districts where commercial building owners may finance energy-efficiency and renewable-energy projects.											Adoption of C-PACE2
Objective 3.4 The Planning and Development Department must have a thorough understanding of the potential impacts of climate change on the built environment and understand the risks to property posed by climate change.	●	○					○		○		
1. An emergency evacuation and crisis plan should be developed for areas prone to flooding.											- Hazard Mitigation Plan updated as needed. - Emergency Operations Plan updated as needed.
2. New construction and replacement should be discouraged in flood-prone areas.	X	X									Amend floodplain regulations
3. Planning for drought management should be undertaken; adaptation and mitigation will help make our community resilient.	X						X				- Municipal water management plan - New low impact development projects
4. Educational programs encouraging community and home gardens and food storage should be part of resilience planning.									X		- Educational materials created - Educational programs - Number of attendees

ENERGY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 4 The City should support regional and national actions to reduce greenhouse gas emissions.	○	●					○			●	
Objective 4.1 The Planning and Development Department will expand its awareness of regional and national actions that reduce climate change, and recommend policies and practices that support these actions.	○	○					○			○	
1. Initiatives to educate the public and create incentives for business and organizations will be prioritized.	×	×					×			×	• Incentives utilized • Project(s) complete
Objective 4.2 The City should reduce or eliminate vehicle emissions through municipal actions.		○								○	
1. As municipal vehicles age out, renewable energy vehicle options should be considered.											• Municipal policy • CIP projects planned
2. The City should institute a no-idling policy for City vehicles wherever appropriate.											• Municipal policy
3. The City should explore policies that promote reduced vehicle usage.											• Municipal policy
4. The City should explore the creation of electric vehicle charging stations for municipal and public use.											• CIP projects planned • Number of stations
Objective 4.3 Encourage appropriate land use patterns that enable fewer vehicle-miles traveled.	○	○								○	
1. The localization of community resources will be a priority in creating a more sustainable and resilient community.		×									
2. The City should consider relocating the Transfer Station to a more centralized location to increase travel efficiency for the public, to create a more accessible location, and thereby promote additional use.		×									
Objective 4.4 Reduce vehicle-miles traveled through an integrated multimodal transportation system.										○	

ENERGY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. The City must support existing forms of public transportation, including a public bus service and passenger rail service. The City should seek to expand these services whenever possible, especially to build linkages between housing, education, and employment centers.										X	- Transit passenger trips - Number of bus routes - Number of train passenger ons/off - CIP projects planned
Goal 5 Gain a competitive advantage in the region through the adoption of ecology-friendly community programs.	○	○					○				Types of programs.
Objective 5.1 To become a Dark Sky Community by 2037.	○	○									
Objective 5.2 Pursue becoming a Tree City USA Community by 2022.							○				
Objective 5.3 Consider joining the New England Resilience and Transition Network or similar organizations and charge the City of Claremont Energy Committee with exploring becoming a Transition Town.	○						○				
Objective 5.4 Consider participation in other opportunities or programs consistent with this goal.											
HISTORIC RESOURCES											
Goal 1 Preserve and protect the City's historic resources.	●	○	○			○					
1. Continue to update and enhance the inventory of historic sites and structures so as to create a living document.	X	X	X			X					Update complete
2. Determine which resources are most vulnerable to damage/destruction and create plans to protect them.	X		X			X					Plans created
3. Implement the recommendations from the 2004 Historic District Assessment as appropriate.	X										Recommendations implemented
Goal 2 Extend preservation/protection abilities outside of the Historic District.	○					○					
1. Continue to support the work of the HDC.	X					X					

HISTORIC RESOURCES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
2. Explore possibility of creating a Heritage Commission whose mission will be the long-term protection of the City's historic resources.	X					X					Heritage commission created
Goal 3 Expand preservation/protection tools beyond the exterior appearance of buildings.	●	○	○			○					
1. Become knowledgeable about the types of easements that may be employed to preserve or protect historic properties.											City staff and HDC volunteer trainings
2. Use regulations and ordinances to preserve and protect.	X										Resources preserved and/or protected
3. Develop and implement zoning and site plan regulations and design guidelines that preserve and protect the historic character of Claremont and to ensure historic blending of new or rehabilitated buildings on the perimeter of the City.	X										- Develop historic preservation guidelines - Regulatory amendment(s)
4. Review the city of Claremont's zoning ordinance and the City's building and fire codes to identify regulations that would unintentionally impede the rehabilitation or reuse of historical properties.	X	X	X			X					Regulatory audit
5. Review current zoning, subdivision, and City ordinances to determine current level of historic resource protection within the development review process.	X										Regulatory audit
6. Become knowledgeable about grant programs and how they might benefit historic preservation efforts.											Grants and other funding sources identified
7. Promote use of the federal tax credits in local historic rehabilitation projects.											- Grants and other funding sources identified - Grant funding received
8. Ensure that efforts are taken in subdivision applications to preserve historic farmsteads.	X										- Regulatory audit - Regulatory amendment(s) - Farmsteads preserved
Goal 4 Seek to improve awareness of historic resources.		○	●					○			
1. Secure funding for the City or Historical Society to print a Self-Guided Walking Tour booklet outlining the historical sites and buildings in Claremont.			X					X			Walking tour published

HISTORIC RESOURCES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
2. Create a brochure that illustrates and defines the different architectural styles as a means of increasing people's knowledge about the City's historic buildings and structures.			X								• Brochure published
3. Make the City's "Historic Sites and Structures Inventory" available to the public.			X								• Inventory published
4. In accord with the mill history of Claremont, it would be appropriate, to designate space within one of the mill buildings, as they are developed, to provide a visual arts museum showing the town's waterfront development throughout the 18th and 19th centuries.			X								• Museum created
5. Create an inventory of the City's historic artifacts. Work toward making them accessible to the public where feasible.			X								• Inventory completed
6. Employ signage as a means of educating the public (local and tourist) about the City's historic resources.		X	X								• Signage installed
7. Expand the historic landmark program by educating property owners as to the historic and aesthetic value of their properties, and by signing more properties.			X								Owners contacted New signage installed/existing signage refurbished
Goal 5 Encourage adaptive re-use of historic buildings.	●		○	○		●			●		
1. Work with private property owners to encourage adaptive reuse of historic buildings while preserving the character- defining features of historic buildings and structures.	X		X	X		X			X		• Structures re-used
2. Prevent building demolition by encouraging the rehabilitation of historic buildings in ways that reflect and respect each building's historic character.	X								X		• Building inventory update
3. Ensure that future development is sensitive to the historic character of buildings and landscapes within the City.	X					X			X		
4. Encourage development that reflects and respects the historic landscape.	X					x			X		

HOUSING	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Develop a comprehensive approach to improving existing housing stock and retaining the community character.	○	○	●	○	○				●		
Objective 1.1 Enhance municipal advocacy for good quality housing.			●	○					●		
1. Enforce the City Code			X	X					X		- Updated report on Healthy Homes Initiative - Housing quality enforcement
2. Promote the Healthy Homes Initiative in partnership with local, regional, and statewide non-governmental organizations.			X						X		- Updated report on Healthy Homes Initiative - Housing quality enforcement
3. Increase City staff collaboration with local and regional housing advocacy groups and community organizations where housing is part of their mission.			X								- Partner organizations - Organization contacts and activities with staff
4. Develop a regular schedule of public education programs surrounding City Codes, landlord/renter rights, first-time home ownership, property maintenance, benefits of abating possible threats to health.									X		- Number of public meetings - Number of public outreach events
5. Review tax incentives to allow aging residents to remain in their homes.											Tax program assessment report
6. Develop a methodology to track housing quality and reporting trends in housing quality over time to meet the objective.											Housing quality metrics
Objective 1.2 Encourage rehabilitation of existing housing stock.	○	○			○						
1. Enhance opportunities for private investment through public-private partnerships, identifying funding sources including grants and low-interest loans.											- Grants and other funding sources identified - Partner organizations
2. Engage regional and national housing advocacy organizations to develop neighborhood plans and housing stabilization programs.	X	X			X						- Neighborhood plan(s) complete - Partner organizations

HOUSING (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 2 Utilize municipal planning tools, regulations, and partnerships to ensure new housing development meets Claremont's long-term housing vision.	●	●	●	○	○		●	○	●	●	
Objective 2.1 Review Land Use Regulations to ensure appropriate housing development.	●	●	○	○	○		●	○	○	●	
1. Adopt appropriate innovative land use practices for rural residential development balancing the need for new housing development with protecting natural resources and preserving open space.	X						X				● Regulatory amendment(s)
2. Encourage redevelopment and adaptive reuse in the City Center that preserves and enhances the historic character of the downtown.	X	X		X	X					X	● Redevelopment projects in the City Center
3. Incorporate development incentives to encourage new housing proposals that maximize use of existing community infrastructure and services consistent with the Future Land Use Plan in the Land Use Chapter.	X	X	X	X			X	X		X	● Regulatory amendment(s) ● Development incentives adopted
4. Update the Subdivision Regulations.	X						X		X	X	● Regulatory amendment(s)
5. Encourage development practices that enhance Claremont as an attractive community that is accessible for people of all ages and abilities.	X	X	X					X	X	X	● Regulatory amendment(s)
Objective 2.2 Develop a Strategic Housing Plan.	○	●							●	○	
1. Targeted Employer/Community Meetings – community involvement in the process will ensure future development will enhance sense of place, traditions, goals, and values of Claremont.											● Number of public meetings ● Findings from meetings
2. Identify housing issues and opportunities by specific geography consistent with the Future Land Use Plan.	X	X							X		● Mapped housing issues and opportunities

HOUSING (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Outline desired outcomes and strategies to meet future housing needs.			X						X		• Report of findings
4. Identify approaches to future housing development and financing options through public-private partnerships.											• Partner organizations • Report of findings
5. Outline methods to maintain good quality healthy and affordable housing options for low and fixed-income households.			X						X		• Report of findings
6. Recommend universal design and development approaches to attract new residents and retain aging Claremont residents.	X		X						X	X	• Report of findings
NATURAL RESOURCES WATER RESOURCES											
Goal 1 Water Resources Protect and improve the quality of the City's surface and groundwater resources.	●	●						○	○		
Objective 1.1 Integrate water resource protection best practices into City land use planning priorities and regulatory updates.	●	●						○	○		
1. Create and adopt a watershed management plan to regulate land use activities that affect the quality and quantity of the City's surface and groundwater resources. The plan should incorporate the tools discussed in this chapter.	X										• Watershed Management Plan
2. Update the 1991 Source Water Protection Plan.	X	X							X		• Updated Source Water Protection Plan
3. Assess current level of resource protection in zoning, subdivision and site plan regulations.	X										• Assessment • Recommendations
4. Integrate wetland and aquifer protection into water resource protection strategies.		X									• Regulatory amendment(s)
5. Work with Parks & Recreation Department to ensure that recreation does not compromise the water resources in or near which they may be located.	X	X						X			• Management Plan
Objective 1.2 Manage City-owned properties to protect water resources.	●	●						○			

NATURAL RESOURCES WATER RESOURCES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Finish marking the boundaries of the Stevens Brook Easement area and posting the necessary signage.	X	X						X			• Task complete
2. Ensure compliance with the terms of the Stevens Brook Conservation Easement.											• Monitoring program
3. Enhance undeveloped buffer zones around City public water supply reservoirs.	X	X									• Updated Source Water Protection Plan
4. Develop a land management plan for all City properties with emphasis on water quality improvement and protection.	X	X									• Watershed Management Plan
Goal 2 Floodplains Maintain regulatory floodplains in the City to serve as flood storage and attenuation areas while minimizing risk to property damage, injury, or loss of life during a flood event.	●	●	●			○			○	○	
Objective 2.1 Make Claremont a community resilient to flooding.	●	●	●			○			○	○	
1. Conduct periodic reviews of City land use regulations to meet the minimum regulatory requirements of the National Flood Insurance Program. Amend as needed to remain compliant.	X	X	X			X					• Regulatory audit • Regulatory amendment(s)
2. Utilize grants, technical assistance, and other opportunities to evaluate and improve City infrastructure, development policies, and land use regulations to increase flood resilience.	X	X	X							X	• Grants and other funding sources identified • Policy audit • Regulatory audit • Regulatory amendment(s)
3. Incorporate, as appropriate, findings and recommendations of the current Hazard Mitigation Plan into municipal land use planning practices.	X	X	X						X	X	• Regulatory amendment(s)
4. Map dam failure inundation areas in the City and identify appropriate actions to manage development within those areas.	X										• Map • Regulatory amendment(s)

NATURAL RESOURCES LANDSCAPE AND GEOGRAPHY	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Sense of Place The City should recognize characteristics in its natural landscape that define its character, as experienced by its citizens, and strive to preserve and protect them.	●	○	●		○			●	●		
Objective 1.1 Identify and protect important topographic and scenic features in the City landscape.	●										
1. Minimize development on areas with slopes greater than 15%.	X										Regulatory amendment(s)
2. Identify hilltops and ridgelines that warrant protection from development and develop appropriate protection strategies.	X										- Inventory completed - Protection strategies developed - Regulatory amendment(s)
3. Identify important scenic vistas and develop protection strategies.	X										- Inventory completed - Protection strategies developed - Regulatory amendment(s)
Objective 1.2 Conserve important agricultural soils.	○	○	○		○				○		
1. Minimize development/impermeable surfaces on mapped Prime Agricultural Soils.	X										- Development standards - Regulatory amendment(s)
2. Promote agricultural development and agricultural tourism.	X		X		X						Marketing Plan
Objective 1.3 Enhance community use of natural resources	●	○	○					●	○		
1. Maintain the traditional New England development pattern with a densely developed center surrounded by gradually less dense development and increasing open space toward the City's boundaries.	X										Land Use Map update
2. Foster good land and natural resource stewardship (e.g. agriculture and forestry best management practices) of private and City-owned open space through education and outreach efforts. Encourage individual landowners to be good stewards of their own properties.	X										- Education program designed - Outreach program designed

NATURAL RESOURCES LANDSCAPE AND GEOGRAPHY (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Identify open space parcels that have significant natural resource value and/or serve as wildlife corridors for the City or a third party to purchase or obtain easements for natural resource conservation.	X										Natural Resources Map
4. Assess current level of resource protection in City Land Use Regulations. Develop regulatory amendments to increase protections, where necessary.	X										- Regulatory audit - Regulatory amendment(s)
5. Continue to provide for both motorized and non-motorized sustainable recreation opportunities such as ATV and snowmobile trails, foot paths, and cross-country skiing and snowshoe trails where it is appropriate and compatible with the ecology of the parcel.			X					X	X		City-wide trail map
6. Manage City recreation areas for ecologically and socially sustainable recreation opportunities including maintaining a recreational infrastructure (e.g. picnic areas, shelters, trails, etc.), hunting (where appropriate), and creating vistas along recreational trails for scenic areas and wildlife viewing.		X	X					X	X		Recreational Facilities Plan
7. Complete the long-range plan for the rail-trail and implement its findings.								X			Rail Trail Master Plan
8. Work with the Parks and Recreation Department to ensure that recreational activities on City-owned open space lands are not incompatible with the ecosystems of those lands.								X			Rail Trail Master Plan
NATURAL RESOURCES FOREST RESOURCES											
Goal 1 Recognize the value of the City's urban and rural forests in the character and quality of life in the City.	○	●		○					●	○	
Objective 1.1 Improve management of the City's urban trees.		○		○					○	○	

NATURAL RESOURCES FOREST RESOURCES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Pursue membership in the Tree City USA program.									X		Membership secured
2. Create a policy and guidelines for management of trees in the public cemeteries and in the public rights-of-way outside of the City Center.		X								X	Updates to DPW Tree Maintenance Policy
3. Create a Management Plan for trees in the public spaces of the City Center.				X					X		Updates to DPW Tree Maintenance Policy
Objective 1.2 Improve where necessary and maintain healthy, biodiverse, productive and aesthetically pleasing forests.	○	○							○		
1. Incorporate the 2013 Natural Resources Inventory into the 2008 Forest Management Plan.		X							X		Updated Forest Management Plan
2. Implement and regularly update the Forest Management Plan.		X							X		Update schedule created and Implementation
3. Assess current level of resource protection in zoning, subdivision and site plan regulations	X										- Regulatory audit - Policy audit - Regulatory amendment(s)
NATURAL RESOURCES WILDLIFE RESOURCES											
Goal 1 Recognize the value of wildlife resources in the character and quality of life in the City.	●	○								○	
Objective 1.1 Adopt a holistic view of natural systems which places human activity within rather than apart from the natural environment.	○										
1. Wildlife Habitats											- Natural Resource Inventory update - Natural resource mapping
A. Map vernal Pools and shrub lands											Regulatory amendment(s)
B. Work to reduce riparian buffer disturbance to enhance river otter habitat.	X										
2. Long-Term Protection of Wildlife Habitat											
A. Enhance the natural biological diversity of wildlife habitat in forest, wetland, and open land settings											
B. Manage with respect to Natural Community type											Natural Resource Inventory update

NATURAL RESOURCES WILDLIFE RESOURCES (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
C. Maintain the stability and integrity of the ecosystems within our control											
D. Develop conservation plan unique to the Cat Hole property											
E. Assess current level of wildlife resource protection in zoning, subdivision and site plan regulations and recommend updates as needed	X										- Regulatory audit - Regulatory amendment(s)
Objective 1.2 Adopt management practices that support indigenous habitats and prevent fragmentation so that wildlife can migrate for seasonal food and reproductive needs.	○	○								○	
1. Unfragmented Lands and Habitat Connectivity											
A. Include protection and/or creation of wildlife corridors in development regulations and in City highway policy	X										- Natural resource mapping - Natural Resource Inventory update - Regulatory amendment(s)
B. Consider wildlife travel patterns when creating wildlife corridors; adjust transportation patterns to reduce road mortality											
C. Protect against fragmentation of existing large blocks of undeveloped lands.											Regulatory amendment(s)
D. Work with DPW to ensure appropriate culverts are installed where aquatic travel patterns are known.		X								X	- Culvert inventory - CIP projects planned - Project(s) complete
NATURAL RESOURCES INVASIVE SPECIES											
Goal 1 Recognize the harm that invasive species have to indigenous habitats and species in the City.								○			
Objective 1.1 Work to reduce the spread of invasive species throughout the City.								○			
1. Educate the public about invasive species and the damage they cause.											- Education program developed - Number of public outreach events
2. Work with DPW to reduce the spread of invasives along roads during routine road maintenance work.											Reduction strategy
3. Control invasive species on City-owned lands.								X			Control program implemented

NATURAL RESOURCES ECOLOGICALLY SIGNIFICANT AREAS	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 1 Recognize the ecological and community significance of each of the ecologically significant areas in the City.	○										
Objective 1.1 Protect the ecological integrity of the ecologically significant areas in the City.	○										
1. Develop management plans for each of the ecologically significant areas and implement them.	X										• Management plans developed • Implementation plan developed • Natural Resource Inventory update
2. Assess current level of protection of these areas in the current zoning, subdivision and site plan regulations.	X										• Regulatory audit • Regulatory amendment(s)
PARKS & RECREATION											
Goal 1 Promote Health and Wellness in our community.	○	○	○	○	○	○	●		●	○	
1. Take the steps necessary to again become a Tree City.							X				• Membership secured
2. Take the steps necessary to make Claremont, especially the downtown core, a pedestrian and bicycle friendly community, including the maintenance, improvement and creation of biking and walking trails.	X	X	X	X		X	X		X	X	• Adopt Complete Streets Policy • Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete
3. Prevention of vandalism and promoting safety should be priorities.											
4. Maintain and improve pedestrian and bicycle access to all parks and facilities.									X	X	• Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete
5. Address invasive plant species throughout the park system.							X				• Control program implemented
6. Enhance public spaces with public art that will delight, engage, and inspire.		X	X								• CIP projects planned • Project(s) complete
7. Develop a mission statement for community wellness as part of the Parks and Recreation Department planning process.									X		• Recreational Facilities Plan

PARKS & RECREATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Goal 2 Expand and enhance recreational facilities, parks, trails, and bike paths to encourage additional use opportunities.	○	●					○				
1. Develop “pocket parks” in appropriate city owned lots.	X	X									• Project(s) complete
2. Construct and properly maintain splash pads and other water features at appropriate venues around the city.											• CIP projects planned • Project(s) complete
3. Install suitable lighting, fencing, landscaping and comfort facilities as appropriate throughout the parks system.											• CIP projects planned • Project(s) complete
4. The process of reconfiguring and improving Broad Street Park initiated by the Parks Department should be encouraged and continued.		X									• CIP projects planned • Project(s) complete
5. Appropriate available property adjacent to any park should be considered for possible addition to the park system.											• Property acquisition reserve fund in CIP • Properties purchased
6. Visitor Center Green:											• Development Plan
a. Installation of lighting, electrical power, restrooms and a water supply.		X									• Property acquisition reserve fund in CIP • Properties purchased
b. This area is becoming a venue for public art, concerts, community festivals and cultural events. This “identity” should be encouraged and supported with proper planning, improvements, maintenance and allocation of resources.											
c. Clarify administrative jurisdiction over the Green and the Visitors Center.		X									
d. Improve safety and security.											
e. Construct a permanent band shell and/or stage at an appropriate location within the expanded Green.											• Property acquisition reserve fund in CIP • Properties purchased
f. Incorporate the adjacent “gas company” property and the original Lacasse Park into the Green.											

PARKS & RECREATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
g. Construct walking/bicycle paths throughout the parcel.		X									- Property acquisition reserve fund in CIP - Properties purchased
7. Improve the access to parking throughout the parks system, including lighting, crosswalks and safety measures.		X									- Property acquisition reserve fund in CIP - Properties purchased
8. Rail Trail		X					X				Rail Trail Master Plan
a. Encourage collaboration between the Conservation Commission and the Parks and Recreation Committee and other interested trail users in the creation and implementation of the rail trail master plan.											- Property acquisition reserve fund in CIP - Properties purchased
Goal 3 Create and implement improved maintenance plans with adequate funding that will protect our assets for long term community use.	○	○	○				○			○	
1. It is expected that the City analyze regularly and effectively allocate sufficient staff and resources to properly maintain and improve recreational programming, facilities, parks and the community center.	X	X	X				X			X	- Property acquisition reserve fund in CIP - Properties purchased
2. Resurface the rubberized track surface in Monadnock Park.											- Property acquisition reserve fund in CIP - Properties purchased
Goal 4 Enhance recreation and cultural programming to meet the needs of the residents of Claremont and surrounding communities.			○						○		
1. Create, develop and support year-round, sustainable programming for all ages, including non-sports related programming.									X		Number and types of programs
2. Develop and expand after school activities and a formal programming relationship with the school district.									X		- Agreement with the school district - Number and types of programs
3. Develop programming and initiatives to attract and include economically disadvantaged residents.											Number of programs
4. Allocate sufficient staffing and resources to meet this programming goal.											Program staffing

PARKS & RECREATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
5. Recognize and develop the role culture (especially art, music and literacy) has within the larger recreational context through programming and activities.			X								Cultural programs
6. Fund, develop and properly staff a marketing, promotional and public awareness strategy, including the use of social media.			X								- Marketing plan - Outreach program
Goal 5 Build strong partnerships that further the high standards needed for Claremont programs and facilities.		○	○		○				○		
1. The Parks Department should initiate and guide a community driven planning process to envision and realize the optimal use of Moody Park, Visitors Center Green, Factory St. Park and the city owned parcel behind the old community center. The Parks Department will collaborate with the Historic District Commission when considering future changes or improvements to Broad Street Park.		X	X		X				X		Recreational Facilities Plan
2. Explore ways to engage and promote community involvement with developing and improving specific Parks Department facilities.											- Number of public meetings - Public surveys
3. Develop, encourage and support a strong volunteer effort throughout the entire parks and recreation system.											Number of volunteers
4. Review the financial and staffing relationship between the Parks Department and the school system.											Agreement with the school district
5. Develop a formal, collaborative relationship with the library focused on co-developing suitable programming within the larger recreational context.		X	X								Cultural programs
6. The Parks Department should establish a comprehensive relationship of collaboration regarding Ashley's Landing with the relevant state or federal agencies having jurisdiction over this area.											Recreational Facilities Plan

PARKS & RECREATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
7. The Parks Department and the Claremont School system should develop a comprehensive, formal relationship regarding programming, facilities, staffing and shared resources.											• Agreement with the school district
PUBLIC HEALTH											
Goal 1 Healthy Homes	○	○	●	○	●	●	●				
Objective 1.1 Institute healthy homes initiatives.	○	○	●	○	●	●	●				
1. Lead											
a. Educate the public about lead poisoning and prevention.							X				• Education programs designed & implemented on a regular basis
b. Identify and work with partners who provide resources for lead abatement.		X				X	X				• Database created • Working program designed
c. Utilize GIS mapping as a tool to identify and justify high priority areas for intervention and to visualize efforts.	X					X					• High priority areas identified
d. Provide information on certification and technical training to contractors, homeowners, and home builders for lead abatement. Facilitate training with lead assessment or remediation specialists.			X			X					• Information compiled • Format for delivery designed • Distribution method(s) identified and implemented • Training program created & delivered
e. Support regulatory review of buildings with partners and certified lead specialists.					X						
2. Clean indoor air:											
a. Implement the use of the HUD checklist for building inspections.					X						• HUD checklist obtained and in use
b. Educate property owners on correct weatherization measures and clean indoor air.			X		X						• Education program designed & delivered regularly
c. Bolster online resources with EPA Technical Assistance.											• Missing resources identified & provided
d. Educate property owners on mold, asbestos, radon, allergens and lead, and work with partners to provide resources for remediation.					X						• Education program designed & delivered regularly

PUBLIC HEALTH (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Property maintenance:											•
a. Provide tools and resources for homeowners to prevent or reduce home health hazards, including: falls, lead poisoning, mold, asbestos exposure, and radon exposure.						X					• Tools & resources developed • Delivery designed
b. Demonstrate financial benefits of consistent property maintenance to landlords managing residential units.			X			X					• Program developed
c. Educate landlords about funding opportunities to support healthy homes initiatives.						X					• Program developed
d. Communicate with residents regarding control of health vectors such as rodents, ticks and mosquitoes. Work with property owners and tenants on bed bug control.						X					• Program developed
Goal 2 Healthy Eating Active Living (HEAL)	●	●	●					●		●	
Objective 2.1 Support opportunities for healthy eating and nutrition education.	○	○	●					○			
1. Farm-to-school:											
a. Educate schools about the benefits of farm-to-school initiatives.			X								• Program developed
b. Pursue partnership with farm-to-school programs for technical assistance or seek grant funding, if needed.	X		X								• Develop partnerships
2. Farmers' market:											
a. Encourage availability of healthier retail options at the farmers' market.			X					X			• Vendor participation
b. Support implementation of EBT system to allow low-income residents to use federal or other food assistance programs to purchase fresh fruits and vegetables.											• EBT dollars spent at farmers' market
3. Community gardens:											
a. Support maintenance of the Claremont Community Garden to ensure health and quality of soil and produce		X									• Soil health
b. Encourage development of micro-groceries that integrate produce from community garden.											• Number of small neighborhood markets, items sold

PUBLIC HEALTH (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
c. Expand the community garden program.		X									• Number of gardeners
d. Support gardening, nutrition and cooking education.											• Number of outreach programs
Objective 2.2 Support Opportunities for Active Living.	●	○						●		●	
1. Support recreational programs in partnership with the School District, Parks and Recreation Department, and area health agencies, where appropriate.								X			• Number of activities
2. Safe routes to school and safe routes to play:											
a. Seek grant funding to support initiatives that ensure children have safe routes to school and to play.										X	• Grants and other funding sources identified
3. Pedestrian improvements:											
a. Incorporate complete streets design into the City Center to increase the opportunity for active living. Complete Streets is a philosophy that guides community, planning, and transportation agencies to consider and incorporate safe access to destinations for everyone, regardless of age or ability, or mode of transportation, when feasible.	X	X						X		X	• Adoption of Complete Streets policy • CIP projects planned • Project(s) complete
b. Support Department of Public Works work program and/or capital improvements program to maintain safe and adequate pedestrian pathways connecting neighborhoods to the downtown area.	X	X								X	• CIP projects planned • Project(s) complete
c. Explore opportunities to develop facilities accessible to people with disabilities.											• Number of opportunities explored
d. Continue to develop and facilitate use of rail trail.								X			• Rail Trail Master Plan
e. Identify opportunities for improvement to pedestrian routes between key community destinations (e.g. between grocery store and senior living facility, etc.). Include improved signage and accessible crosswalks in these projects.	X							X		X	• Number of routes identified

PUBLIC HEALTH (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
Objective 2.3 Support opportunities for community awareness about the impact of poverty and stress on childhood development.			○								
1. Partner with the School District and key stakeholders to educate the community on the impacts of poverty on public health.			X								- Partnership - Education Program
2. Identify opportunities in this chapter and other chapters in this Master Plan to alleviate the impact of poverty on children and adults to include health services for those with physical and mental disabilities as well as workforce opportunities and re-training for the underserved.			X								
Goal 3 Emergency Preparedness		●	○				○				
Objective 3.1 Retain and maintain the City's emergency plan for public safety and emergency response and educate the public about the importance of emergency preparedness.		●	○				○				
1. Educate community about various emergency response plans, including local school district and hospital plans as well as regional plans.		X	X				X				Educational materials
2. Uphold agreement with the GSCPHN to indicate that the City has read and maintained a current copy of the Emergency Annex to ESF – 8 and understands their role and responsibility in the event of a public health emergency.		X									
3. Continue to hold emergency preparedness sessions with local, regional and state stakeholders.		X									Number of sessions
Goal 4 Municipal Organizational Structure for Public Health and Wellness											
Objective 4.1 Review and amend the City code relating to community health, and the healthy homes initiative.											
1. Review and amend the Claremont City code including municipal staff roles and responsibility, including the Health Officer and Deputy Health Officer.											Assessment and recommendations

PUBLIC HEALTH (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
2. Establish a Public Health and Wellness Committee (in place of the current Board of Health described in the City Code) whose efforts are linked to community and regional health organizations; ensure that one member of the committee also serves on the Executive Committee of the Greater Sullivan County Public Health Advisory Council. The Public Health and Wellness Committee will have a mission to fulfill the vision of this public health chapter.											Committee created
Objective 4.2 Support City and School implementation of wellness programs.											
1. Establish and maintain education, staff wellness, and partner programs to benefit a community wide wellness focus.											Program established
Goal 5 Identify and apply for appropriate grants to facilitate action items in this Chapter.											Grants and other funding sources identified
TRANSPORTATION											
Goal 1 Maintain adequate parking facilities accessible to the downtown business district.	●	●	●	○	●	○	○	○			
1. Develop a program to provide overnight parking for residential tenants of downtown buildings so that those buildings may be profitably developed and their value increased.	X	X	X	X	X	X					Downtown Parking Plan
2. Build additional safe and cost effective parking to accommodate more workers, students, visitors and residents to the downtown using a coordinated and long-term approach.	X	X	X	X	X						Parking inventory
3. Encourage schools to maintain appropriate parking due to fluctuating student levels while monitoring safety and security concerns.											
4. Develop a regular maintenance program of public parking lots including consideration of establishing new tree plantings and greenspaces, and innovative stormwater management techniques.	X	X	X		X		X	X			- CIP projects planned - Project(s) complete

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
5. Development review of new or existing private parking lots shall evaluate opportunity to incorporate tree plantings, innovative stormwater management techniques and impacts upon neighborhood aesthetics.	X		X		X						• Policy amendment(s) • Regulatory amendment(s)
6. Provide year-round enforcement of downtown parking regulations. Provide adequate signage to identify public parking facilities and their corresponding time limits, with a standardized sign design for all public parking.		X	X								• Downtown Parking Plan • Policy amendment(s) • Regulatory amendment(s)
7. Develop public outreach materials advertising the available public parking in the downtown area as only 20% of parking during the parking study was occupied.											• Parking brochure • Public outreach program
8. Educate downtown businesses about downtown parking and to monitor the parking of their employees and patrons to stay within the parking time limits.											• Businesses contacted
9. Review layout of parking and curb cuts on Broad Street to increase sightlines for cars making left turns and make recommendations.											• Parking and streetscape study
10. Encourage the efficient removal of snow from the downtown following snow events to maintain the number of parking spaces available.											• Snow removal plan
11. Encourage the City to undertake a study to analyze the feasibility and cost benefit of parking meters and/or other methods.											• Downtown Parking Plan
12. Enhance the shared parking regulation for businesses/residences with complimentary parking needs. (i.e. one needs daytime parking and one needs overnight/weekend parking).	X										• Regulatory amendment(s)
13. Develop a Downtown Parking Plan to incorporate and improve upon the above objectives.											• Downtown Parking Plan
Goal 2 Increase the use, appearance, and importance of the Claremont Municipal Airport and the Amtrak Station.	○	●	●								

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Plan for expanded use of the Amtrak Station to a medium-sized station (more than 4,000 passengers per year) by 2020.		X	X								• Amtrak ridership
2. Continue to improve the physical buildings and infrastructure of the Claremont Municipal Airport.	X	X	X								• CIP projects planned • Project(s) complete
3. Continue to develop resources to make the airport a more valuable private aviation facility that can meet the needs of businesses and residents through the development of hangars and associated services such as aviation fuel and maintenance facilities.											• Airport Master Plan
4. Promote the increase in connectivity between the airport, Amtrak Station and downtown areas through the availability of taxis services, rental cars, and pedestrian/bicycle amenities.											• Taxi/car services • Transit routes • Bicycle/pedestrian routes
5. Encourage the use of the airport and Amtrak Station through the development of complementary businesses in the area of the airport and train station.	X		X								• Development of a railroad and airport development district • Businesses established in district
6. Add information/tourism signage, including "you are here" type signage and online resources.		X	X								• Signage installed • Online resources
Goal 3 Develop bicycle, hiking and recreational vehicle routes.	●	○	○	○	○	○	○	●	○		
1. As roads are repaved or rebuilt provide where technically possible pedestrian and bicycle facilities by adding sidewalks or pathways, or markings providing space for joggers and bicyclists to travel. Any improvements should include lighting and security measures.	X		X		X				X		• Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete
2. Ensure that crossings and curbs throughout Claremont are ADA compliant.											
3. Use directional and warning signs which promote these forms of transportation on and off city streets.									X		• CIP projects planned • Project(s) complete
4. Look for opportunities to develop walking trails along the Sugar River and on city owned property making sure that any new trails consider the installation of benches and adequate lighting.											• Signage installed

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
5. Install secure bicycle racks at frequently visited places, including places where regional public transit is provided. Ensure that bike racks are aesthetically pleasing and usable year round.		X		X				X			• Bicycle/Pedestrian Plan
6. Advocate for the installation of a seasonal boat dock to improve the utility of the Connecticut River launch site.	X	X					X	X			• Recreational Facilities Plan
7. Create a policy for the safe use of recreational vehicles and coordinate with the State of New Hampshire, when necessary.								X			• Policy amendment(s)
8. Include provisions for bicycle travel in future land use regulation updates.	X		X			X					• Regulatory amendment(s) • Bicycle/Pedestrian Plan • Policy amendment(s)
9. Set policy for use of watershed areas for hiking and recreational vehicles.											
10. Continue the efforts of the Conservation Commission to complete the Rail Trail Master Plan and if needed identify alternative routes for All-Terrain Vehicle(ATV) use.								X			• Rail Trail Master Plan
Goal 4 Provide for a walkable and bikeable community.	○							○	●		
1. Build sidewalks on at least one side of every city street within the developed portion of the community and include connections/crosswalks for continuous network with a priority on streets within a one-mile radius of public schools.									X		• Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete
2. Promote active student transportation opportunities like walking school bus or bike train programs for student commutes to and from schools.									X		• Student walk and bike to school programs
3. Ensure that streets leading to school bus stops have sidewalks.											• Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete
4. Provide sidewalks and bicycle routes between city parks.								X	X		• Bicycle/Pedestrian Plan • CIP projects planned • Project(s) complete

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
6. Consistently fund the repair and construction of sidewalks.											• CIP projects planned • Project(s) complete
7. Develop a citywide bicycle and pedestrian plan that can be gradually achieved by acquiring property, easements, and additional space on roads.											• Bicycle/Pedestrian Plan
8. Seek state and federal funding for bicycle and pedestrian projects.											• Grants and other funding sources identified
9. Improve pedestrian and crosswalk signage.											• Signage installed
10. Encourage crosswalk enforcement.											
11. Achieve national recognition as a bicycle and walking friendly community.											
12. Ensure that all newly built sidewalk and pedestrian amenities are ADA compliant and work to bring existing sidewalks into compliance.											• Policy amendment(s)
13. Consider creating artistic sidewalks.											• Bicycle/Pedestrian Plan
14. Review crosswalk locations to ensure they meet safety standards.											• Bicycle/Pedestrian Plan
15. Remove utility poles from sidewalks when possible.											• Identify utility poles obstructing sidewalks, contact utility company • Poles relocated
Goal 5 Incorporate Complete Streets Design into the Central Business District.	○	○	○	○	○	○	○	○	○		
1. Pursue engineering design concepts and design study to redesign downtown streets to incorporate Complete Streets and improve character of downtown.	X	X			X	X			X		• Streetscape assessments • Neighborhood plans
2. Develop a Complete Streets policy to be followed on streets in the Mixed Use District.											• Adopt Complete Streets Policy
3. Use traffic calming techniques such as narrowing the roadway for crosswalks to improve pedestrian safety.											• Identify candidate sites • CIP projects planned • Project(s) complete

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
4. Eliminate parking spaces and other obstructions near intersections which block the line of sight drivers have for oncoming traffic. Amend the City's land use regulations to maintain safe sight distance.	X										- Streetscape assessments - Regulatory amendment(s)
5. Develop a committee to review the truck route studies completed to date and identify solutions for implementation.											- Committee formed - Report of findings
Goal 6 Improve public transportation resources.	○	○	●	○					○		
1. Identify and maintain commuter parking areas for park and ride commuters who car pool or use transit for commuting.	X	X		X							Candidate commuter lots identified
2. Evaluate the need to build and maintain shelters for people waiting to use public transportation.											- Transit needs assessment - Report of findings
3. Provide shuttle service from commuter parking areas to the central business district to ease the downtown parking demand, including River Valley Community College.			X								Transit routes
4. Support regional bus service and the Route 120 corridor transit service. Expand the public transit system to meet employer/employee demand, particularly to and from River Road.			X								- Transit needs assessment - Transit routes
5. Consult regularly with private and governmental groups interested in public transit.		X	X						X		- Partner organizations - Number of meetings - CIP projects planned - Grants and other funding sources identified
6. Investigate ways to contribute financially for the development of mass transit.											Transit needs assessment
7. Evaluate the feasibility of a transit connection between downtown Claremont and the Weathersfield Park & Ride.											
Goal 7 Improve traffic flow on main retail and business corridors, including Washington Street and Charlestown Road.	●							○			

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
1. Develop road network redundancy so that accidents or blockages along Washington Street, particularly in the vicinity of the North Street and Winter Street intersections, do not impede emergency service to or from the hospital.	X										- Corridor planning study(ies) - CIP projects planned - Project(s) complete
2. Create zoning and planning provisions that reduce curb cuts along major roadways such as common entrances for several businesses on parcels which may have separate ownership. Careful consideration and assessment of future development should be taken to mitigate and limit negative impacts to road safety.	X										- Regulatory audit - Regulatory amendment(s)
3. Approve zoning and planning measures that require or create parallel back street connections to improve roadway network connectivity.	X										- Regulatory audit - Regulatory amendment(s)
4. Apply policies for traffic on Washington Street to other areas of heavy commercial development such as Charlestown Road and North Street.											
5. Conduct periodic corridor studies of principal routes throughout the City.											Corridor study(ies)
6. Improve the linkage of the Bobby Woodman Rail Trail to Washington Street to provide access to the pedestrian amenities the rail trail provides.								X			Rail Trail Master Plan
7. Implement the Washington Street safety study.											- Regulatory amendment(s) - CIP projects planned - Project(s) complete
Goal 8 Steadily improve the roadways in Claremont.	○								○		
1. Develop a Complete Streets policy to be implemented city wide.	X								X		Adopt Complete Streets Policy
2. Consistently fund the rebuilding and repaving of roads.											- CIP projects planned - Project(s) complete

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
3. Create a pavement management program including a system to prioritize most important byways are maintained first and the ones in the worst condition, but less often used, are maintained secondarily. Explore the utilization of a Road Surface Management System (RSMS) to accomplish this task.											Pavement management program
4. Ensure that new road and sidewalk construction meet the city code requirements before they are accepted by the city.											Staff review and approvals
5. Acquire property or easements so that when funding becomes available for improvements to the transportation network the city can act.											- Bicycle/Pedestrian Plan - Corridor study(ies)
6. Do design work so that projects are “shovel ready” in case funding becomes available.											- Projects identified - Designs complete
7. Continue to improve the Route 103 roadway to facilitate east-west traffic.											Corridor study(ies)
8. Continue to participate in the Upper Valley Lake Sunapee Regional Planning Commission’s Transportation Advisory Committee , which plans for improvements on a regional basis.											Transportation Advisory Committee meetings attended
9. Communicate with elected local officials and state representatives about city and regional transportation needs in order to get necessary planning and funding.											Contacts with state representatives
10. Communicate to the state DOT the city’s fiscal constraints and transportation needs for long-term improvement.											
11. The Traffic Advisory Committee should review accident statistics so that dangerous intersections can be identified and improved. In addition TAC should review when roads are added or improved.											City-wide traffic safety assessment
12. Make aesthetically pleasing improvements to the transportation system.											
13. Work with NHDOT to improve River Road (Route 12A) to include shoulders to better accommodate emergency situations, bicycles, pedestrians, line of sight, and increased truck traffic.											Road improvements complete

TRANSPORTATION (CONTINUED)	LAND USE	COMMUNITY FACILITIES	ECONOMIC DEVELOPMENT	ENERGY	HISTORIC RESOURCES	HOUSING	NATURAL RESOURCES	PARKS & RECREATION	PUBLIC HEALTH	TRANSPORTATION	PERFORMANCE MEASURE
14. Review standards for roads in ordinances to ensure they are appropriate.											• Policy audit • Policy amendment(s) • Regulatory audit • Regulatory amendment(s)
15. Implement a maintenance program to bring city road signs in conformance with the Manual of Uniform Traffic Control Devices.											• Sign maintenance plan • CIP projects planned • Project(s) complete
16. Work with the NHDOT preventative maintenance program for bridges.											• Bridges identified • Bridge maintenance complete
17. Pursue the reconstruction of Main Street from Elm Street to Citizen Street utilizing Complete Streets design.											• Project design development • CIP projects planned
Goal 9 Apply for grants that support this chapter.											• Grants and other funding sources identified
