

APPENDIX B

PERSONNEL CLASSIFICATION AND PAY SCHEDULES*

CITY OF CLAREMONT - IN THE YEAR TWO THOUSAND
AND TWENTY-TWO

ORDINANCE NO. 598

"NON-UNION EMPLOYEE CLASSIFICATION PLAN AND NON-UNION EMPLOYEE PAY SCHEDULE"

THE CITY OF CLAREMONT ORDAINS:

Pursuant to Article III, Sections 24, 25, and Article IV, Section 52, of the Claremont City Charter; the Non-Union Employee Classification Plan (Attachment B) as well as the Non-Union Employee Pay Schedule (Attachment C) to the Non-Union Job Classification Plan are hereby amended and readopted as follows:

Section 1. Compensation and Job Classification.

The compensation of every non-union employee of the city shall be determined by the classification of the job in which such person is employed and in accordance with Attachments B and C to the City's Merit System (which are on file in the city

***Editor's note**—Printed herein is Ord. No. 598, adopted October 12, 2022, concerning the non-union employees classification and salary schedules are herein set out. Amendments are indicated by parenthetical history notes following amended provisions. The union employees classification and salary schedules are on file in the city clerk's office. Formerly, the city's personnel classification and pay schedules derived from Ord. No. 450, adopted July, 14, 2004; Ord. No. 480, adopted April 11, 2007, as amended. Additionally, as herein set out, Ord. No. 606, adopted March 8, 2023, added provisions for the merit system—creation of human resources director and finance/human resources specialist positions; amended the non-union employee classification plan, in Attachment B.

Charter reference—Merit plan, § 50.

Cross references—Administration, Ch. 2; conservation commission, § 2-51 et seq.; personnel advisory board, § 2-101 et seq.; division of personnel created, § 2-163; merit system, Ch. 2, Art. V.

CLAREMONT CODE

manager's office). Upon adoption of this Ordinance, the new versions of both Attachment B and C, which are exhibits to this Ordinance, shall be implemented with the proposed changes contained therein.

Section 2. Compensation for nonunion/nonexempt employees.

With the exception of employees in grades 1 through 4, which are specified solely by an hourly wage rate, rates of compensation of each non-union, non-exempt city employee may be specified by hourly, weekly or annualized salary scales as set forth in Attachment C (on file in the city manager's office). An individual may be hired at or promoted to any salary within his/her job classification and designated Grade if, in the opinion of the department head with the concurrence of the city manager, such individual possesses such experience, skills, or knowledge that meet or exceed the requirements of the position.

Section 3. Salary scales for nonunion/exempt employees.

The rates of compensation to be paid to each non-union/exempt city employee shall be at the annualized pay scales as set forth in Attachment C (on file in the city manager's office), with the exception of the salary of the city manager, which is discretionary with the city council. An individual may be hired at or promoted to any salary within his/her job classification and designated Grade if, in the opinion of the department head with the concurrence of the city manager, such individual possesses such experience, skills, or knowledge that meet or exceed the requirements of the position.

Section 4. Prior Enactments Superseded.

The pay schedules as adopted by action of the City Council concerning those set forth in Attachment C, prior to adoption of this Ordinance, and all prior amendments thereto, are hereby repealed as they pertain to same.

Section 5. Validity.

If any article, section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this ordinance.

Section 6. Effective Date.

This Ordinance shall take effect and be enforced as of January 1, 2023. Introduced and passed on first reading September 14, 2022.

Considered and passed on second reading September 28, 2022.

Considered and passed on third reading by a two-thirds vote October 12, 2022.

ATTACHMENT A

Classification Factors Chart			
<i>Factor</i>	<i>Elements Measured</i>	<i>No. of Degrees</i>	<i>Total Points</i>
1. Knowledges, skills and abilities required by the position.	Nature and extent of information, facts or skills required to do acceptable work	9	300
2. Supervisory controls	Nature of controls, employee's responsibility, Nature of work review	5	100
3. Difficulty of work	Complexity and diversity of work judgment	6 75 5 75	150
4. Scope and effect	Purpose of the work, impact of work	6 75 6 75	150
5. Nature and purpose of personal contacts	Interpersonal skills and importance to work success	5	50
6. Work environment and physical demands	Risks or discomforts imposed by surroundings, physical exertion	4 25 3 25	50

<i>Factor</i>	<i>Elements Measured</i>	<i>No. of Degrees</i>	<i>Total Points</i>
7. Supervision and management	Scope of supervisory and management responsibility, scope of character of subordinate		200
		Total Points	1,000

FACTOR I

KNOWLEDGES, SKILLS AND ABILITIES
REQUIRED BY THE CLASS

This factor measures the nature and extent of information, skills or facts which the worker must process or understand to do satisfactory work (e.g., procedures, practices, rules, theories, principles). To be used as a basis for selecting a degree under this factor, a knowledge must be required and applied on the job.

<i>Degree</i>		<i>Points</i>
1-1	Ability to follow simple oral or written instructions to perform a few routinized or repetitive tasks, operations or procedures; or skill to operate simple equipment, tools or machines which require only brief instructions to operate (e.g., photocopier, common office telephone, vacuum cleaner); or equivalent knowledges and skills which can be quickly learned on the job (e.g., within a few days).	15
1-2	Knowledge of commonly used rules, procedures or operations (e.g., grammar, spelling, arithmetic, filing) and ability to make customary applications to a variety of common situations; or knowledge of basic rules, regulations, procedures or practices relating to a program, function or process (e.g., department clerical procedures, general custodial practices); or skill to operate and make customary uses of equipment or machines requiring some training (e.g., switchboard, typewriter, automobile, keypunch or similar data entry machines); or equivalent knowledges and skills which require some previous education, experience of training (e.g., 1 to 3 months training).	25

<i>Degree</i>		<i>Points</i>
1-3	Knowledge of a moderately complex body of standardized rules, regulations, procedures, operations or techniques applicable to a program, function or process (e.g., basic financial record keeping, stenography, excise abatement or dispatch rules and procedures); or basic knowledge of general work processes and tools of a trade or craft to assist craftsmen or perform assignments of limited scope; or equivalent knowledges and skills requiring some specialized training or experience (e.g., 6 months to 1 year).	50
1-4	Knowledge of an extensive and complex body of rules, regulations, procedures or techniques relating to a program, function or process (e.g., full secretarial practices, legal or hearings stenography, bookkeeping) to perform a variety of interrelated or complex procedural assignments and to resolved a wide range of problems; or knowledge of standard methods, tools and techniques of a technical, scientific or vocational field to perform a variety of common occupational assignments; or knowledge of variant techniques and procedures of a professional or administrative occupation (e.g., accounting, library science) as they apply to assigned standardized tasks (e.g., knowledge of library's collection); or equivalent knowledges and skills which require considerable specialized training or experience (e.g., 1-2 years or completion of a vocational school training program).	75

<i>Degree</i>		<i>Points</i>
1-5	Knowledge of basic principles, concepts, theories and methodology of a professional or administrative occupation (such as may be acquired through a pertinent baccalaureate educational program or its equivalent in training and experience) and skill in applying such knowledge to carry out assignments, operation or procedures in the field (e.g., using basic management concepts to plan and structure work flow and procedures for a process or office or using recreational hours to structure and administer a wide variety of athletic programs or using police/fire science theories to carry out duties); or knowledge of advanced technical or vocational methods and concepts (such as would be acquired through additional experience) to perform difficult, complicated or specialized assignments (e.g., land surveying and skills which require extensive training or experience (3-4 years)).	100

<i>Degree</i>		<i>Points</i>
1-6	Knowledge of the full range of generally accepted and commonly used principles, theories, methodology and pragmatic approaches of a professional or administrative occupation (normally acquired through graduate study or additional work experience after a relevant baccalaureate education) to carry out a variety of conventional assignments or assignments in a specialized aspect of the field (e.g., public health nurse); or knowledge of a wide range of specialized technical methods, principles, concepts and practices equivalent to a limited area or narrowly specialized aspect of a professional or administrative field (e.g., cataloging librarian); or mastery of a trade or craft (e.g., master mechanic); or knowledge of managerial concepts and practices to administer a program not requiring professional or quasi-professional knowledges as described at the higher degrees (e.g., assistant recreational program director); or equivalent knowledges and skills.	150

<i>Degree</i>		<i>Points</i>
1-7	Full knowledge of a professional or administrative occupation to act as an expert, consultant or advisor to other professionals or develop wide ranging programs (e.g., children's librarian); or a comprehensive, broad range of quasi-professional knowledges and knowledge of related disciplines (e.g., building construction) to act as a consultant or expert advisor on matters pertaining to the field; or knowledge to manage programs requiring administrative and advanced vocational or specialized technical expertise (e.g., police captain, maintenance foreman) (equipment repair); or equivalent knowledges and skills.	200
1-8	Knowledge to manage programs requiring both administrative and professional or broad quasi-professional expertise; or equivalent knowledges and skills.	250
1-9	Broad managerial and professional expertise to administer diverse programs; or knowledge which substantially exceeds degree 1-8; or equivalent knowledges and skills	300

FACTOR 2

SUPERVISORY CONTROLS

"Supervisory Controls" covers the nature and extent of direct or indirect controls exercised by the supervisor, the employee's responsibility, and the review of completed work. Controls are exercised by the supervisor in the way assignments are made, instructions are given to the employee, priorities and deadlines are set, and objectives and boundaries are defined. Responsibil-

ity of the employee depends upon the extent to which the employee is expected to develop the sequence and timing of various aspects of the work, to deviate from instructions, and to participate in establishing priorities and defining objectives. The degree of review of completed work depends upon the nature and extent of the review, e.g., close review in progress or on completion for accuracy and adherence to instructions; spot checks for accuracy; or review only for adherence to policy.

<i>Degree</i>		<i>Points</i>
2-1	The work is closely controlled either by the structured nature of the work itself due to the prescribed sequence of steps or by extensive supervisory directions. Clear, detailed and specific instructions govern the work or are explained with each assignment. The employee works as instructed and consults with the supervisor as needed on all matters not specifically covered in the guidelines or instructions. The supervisor maintains control by reviewing the work in progress or upon completion. The employee's work is evaluated for accuracy, adequacy and compliance with instructions.	15

<i>Degree</i>		<i>Points</i>
2-2	The employee is familiar with the work routine and uses initiative in carrying out recurring assignments independently without specific instruction. The supervisor provides additional, specific instructions for new, difficult or unusual assignments, including suggested work methods or advice on reference material available. The employee is expected to seek advice and further instructions. Reviews and checks of the employee's work are applied to an extent sufficient to keep the supervisor aware of progress, and to insure that completed work and methods used are technically accurate and that instructions are being followed.	30

<i>Degree</i>		<i>Points</i>
2-3	The employee plans and carries out the routine work in accordance with standards practices and previous training, with substantial responsibility for determining the sequence and timing of action and substantial independence in planning and organizing the work activities, including determining the work methods. The employee is expected to solve through initiative and experienced judgment most problems of detail or unusual situations by adapting methods of interpreting instructions to resolve the particular problem. Instructions for new assignments or special projects usually consist of statements of desired objectives, deadlines and priorities. Technical and policy problems or changes in procedures are discussed with the supervisor but ordinarily the employee plans the work, lays it out and carries through to completion independently. Work is generally reviewed only for technical adequacy, appropriateness of actions or decisions, and conformance with policy or other requirements; the methods used in arriving at the end result are not usually reviewed in detail.	50

<i>Degree</i>		<i>Points</i>
2-4	The employee receives only general direction and guidance from the supervisor. Active control is manifested only where matters of policy, coordination, long range planning, expenditures of funds, legal authority and related items are involved; and, even in such matters, the employee generally participates by making recommendations or developing plans in conference with superiors. The employee has nearly complete responsibility for planning, organizing and carrying out all phases of projects, program studies or other work, including deciding the methods required to produce expected results. The employee is considered an expert in the work and is expected to handle unusual situations and make proper interpretations without advice or instruction other than that available through statements of policy or mission, broad objectives or laws, and generally accepted principles and practices. The employee is also expected to resolve all conflicts which arise and coordinate with others as necessary. Results of the work are considered technically authoritative and normally accepted without change. If the work is reviewed, the review concerns such matters as fulfillment of program objectives, effect of advice and influence on overall program, and consistency with city or department policy.	75

<i>Degree</i>		<i>Points</i>
2-5	The employee receives only broad policy guidance and administrative directions from the city council, other boards and commissions or the city manager. The employee has managerial responsibility and personal accountability for accomplishing broadly-defined programs, missions and functions. The supervisor is generally consulted or exercises control only in the development of overall policies, goals, objectives and budgets.	100

FACTOR 3

DIFFICULTY OF THE WORK

This factor considers how difficult it is to perform the work. Jobs are made more difficult by the range and diversity of the assignments or duties, the specificity and relevance of guidelines for performing the work, and the nature of the mental demands required to accomplish the work. To the extent that guidelines are available and relevant the requirement for judgment and creativity are reduced. Consequently, this factor has two elements - "Complexity and Diversity of the Work" and "Judgment."

Complexity and diversity of work

<i>Degree</i>		<i>Points</i>
3-1	The work consists of simple, routine or repetitive tasks, operations or procedures with few variations in the established routine.	5

<i>Degree</i>		<i>Points</i>
3-2	The work consists of varied duties involving relatively standardized practices, procedures or processes. The work sequence or procedures used vary as a result of differences in the particular facts, transaction, entry or information involved.	10
3-3	The work consists of a variety of assignments involving complex or non-standardized tasks, operations or procedures requiring analysis of facts and conditions surrounding each assignment. Factors to be considered differ with the subject, phase or issues involved in each assignment. The nature and variety of assignments are such that the determination of the steps involved and the sequence of their performance is a major factor in the work.	20
3-4	The work consists of varied assignments requiring practical application of a variety of concepts, practices and specialized techniques relating to a professional, technical or administrative field. Assignments typically involve evaluation and interpretation of factors, conditions or unusual circumstances; inspecting testing or evaluating compliance with established standards or criteria; gathering, analyzing and evaluating facts or data using specialized factfinding techniques; or determining the means to accomplish the work.	30

<i>Degree</i>		<i>Points</i>
3-5	The work consists of a broad range of assignments employing many different concepts, theories, principles, techniques and practices relating to a professional, administrative or highly technical field. Assignments typically concern such matters as studying trends in the field for application to the work; assessing services and recommending improvements; planning projects; devising new techniques for application to the work, recommending policies, standards, or criteria; and solving typical occupational problems.	50
3-6	The work consists of managerial and administrative assignments involving broad functions and processes such as planning, organizing, controlling, coordinating, evaluating and integrating activities and programs.	75
	Judgment This element evaluates the extent to which thinking is circumscribed or guided by available guidelines and the degree of analysis. "Guideline" here means all types of reference material, including oral and written instructions, policies, regulations, procedure manuals, standard methods and practices, past precedent, and reference tools such as dictionaries and occupational handbooks.	

<i>Degree</i>		<i>Points</i>
3-A	Well defined, detailed rules, instructions and procedures cover all important aspects of the work and presents no problem in determining their applicability. Judgment involves choosing the appropriate procedure, instruction, or regulation to apply in each case.	5
3-B	Numerous standardized practices, procedures, or general work instructions govern the work but are not always clearly applicable. Judgment is needed to locate and select the most pertinent instruction, rule or procedure for application from among many or for choosing which of several approved alternatives to use in specific cases.	15
3-C	Guidelines are available but may be complex and technical, not completely applicable to the work, or have gaps in specificity. They include a large body of unwritten policies, practices and precedents, deal with matters relating to judgment, efficiency or relative priorities rather than procedural concern, or require understanding, interpretation and application of complex federal, state or city regulations. The work requires examining, analyzing and evaluating facts and circumstances surrounding individual problems, situations or transactions and in the determination of actions to be taken within the limits of standard or accepted practice.	30

<i>Degree</i>		<i>Points</i>
3-D	Guidelines provide only limited guidance for performing the work. They may be in the form of broad administrative or city policies, general principles, basic legislation or similar broadly-defined references. Extensive judgment and ingenuity are required to develop new or adapt existing methods and approaches for accomplishing objectives or to deal with new or unusual requirements within the limits of the guidelines. The employee is recognized as the city's technical authority in interpreting the guidelines, determining how they should be applied, and developing operating policies.	50
3-E	Guidelines for performing the work are obscure, non-existent or highly contradictory for many aspects of the work. A high degree of creativity, judgment and perceptiveness is required to deal with novel or non-recurring situations for which there is little precedent.	75

c;

FACTOR 4

SCOPE AND EFFECT

This factor evaluates the relative significance or importance of a job to the accomplishment of the missions and functions of City government. "Effect" measures the impact of the work performed, both within and outside the City government. The concept of effect alone down [does] not provide sufficient information to properly understand the impact of a position. The "scope"

or overall functions of the assignment provides the additional perspective needed to evaluate the magnitude of the effect. Only the effect of properly performed work is to be considered.

Scope		
<i>Degree</i>		<i>Points</i>
4-1	The purpose of the work is execution of specific procedures, rules or operations which usually comprise a segment of an assignment, function, project or process of broader scope.	5
4-2	The purpose of the work is to carry out a variety of duties comprising a complete function or assignment of substantial or significant scope.	10
4-3	The purpose of the work is to investigate, analyze, treat or solve problems, conditions or questions in conformance to established criteria or standard practices.	20
4-4	The purpose of the work is to plan and conduct substantial projects or programs where set procedures/practices have not been established, furnish advice and expertise in developing standards, programs, methods or operating policies, or resolve critical problems.	30
4-5	The purpose of the work is to administer a total City service or program.	50
4-6	The purpose of the work is to integrate and coordinate several diverse City programs and activities.	75

<i>Degree</i>		<i>Points</i>
4-A	The work performed by the employee facilitates the timely and efficient provision of department services or facilitates the timeliness and efficiency of other's work.	5
4-B	The work performed by the employee affects the accuracy, reliability or acceptability of subsequent operations, processes, services or a management decision; or affects the psychological and physical comfort of people.	10
4-C	The work performed affects the adequacy, reliability, suitability or acceptability of a total process, service, function or project; or directly affects the social, economic or physical well-being of people.	20
4-D	The employee's work affects the design, implementation and accomplishment of a major city program or service.	30
4-E	The employee's work has a significant effect on the activities of other city departments or on many aspects of city operations and services; or affects the economic or physical well being of all city residents	50
4-F	The employee's work directly affects, on a long term and continuing basis, the health and safety of all city residents and property.	75

FACTOR 5

NATURE AND PURPOSE OF PERSONAL CONTACTS

This factor measures interpersonal skills required in work relationships and their importance to the success of the work. Contacts with supervisor are not considered here.

<i>Degree</i>		<i>Points</i>
5-1	Cooperative work relationships with employees in the department or other City offices incidental to the purpose of the work involving giving and receiving factual information about the work; there may be occasional contacts with the public. Ordinary courtesy and tact are required.	5
5-2	Person-to-person relationships involving explanation or discussion or interpretation of what is required in order to render service, plan or coordinate work efforts, or resolve operating problems. Contacts are with the general public, service recipients and employees of outside organizations such as vendors or Banks. More than ordinary courtesy, tact and diplomacy may be required to resolve complaints or deal with hostile, uncooperative or uniformed persons.	10
5-3	Relationships with groups or individuals such as civic leaders, contractors, peers from other municipalities, representatives of government agencies, the news media, representatives of professional organizations when the employee serves as a spokesman or recognized authority for the department or city in matters of substance or considerable importance.	20

<i>Degree</i>		<i>Points</i>
5-4	Relationships with groups or individuals such as other experts who have conflicting opinions or objectives, diverse points of view or similar differences where skillful negotiating, convincing, and achieving compromise is required to secure support, concurrence, acceptance or compliance; or person-to-person relationships with person who are dangerous, fearful, emotionally unstable, sick, and may be under severe stress, etc., where gaining concurrence, cooperation or control is achieved through persuasion, motivating, influencing, or similar skills and/or where the use of force may be required to obtain the desired effect.	35
5-5	Relationships with high ranking officials from outside the city such as state legislators, the governor, congressmen, executives of federal or state agencies or others who have a significant impact on the policies and programs of department or city to justify, defend, negotiate or settle matters involving significant or controversial matters.	50

FACTOR 6

WORK ENVIRONMENT AND PHYSICAL DEMANDS

This factor evaluates the degree to which the work places special demands upon the employee as a result of physical effort or the physical surroundings. It is measured in terms of hazards or discomforts and physical exertion.

Work environment

<i>Degree</i>		<i>Points</i>
6-1	The work environment involves everyday risks, discomforts or unpleasantness typical of such places as offices, libraries or residences. Noise or physical surroundings may be distracting but require no special safety precautions.	5
6-2	Working conditions involve some risks, discomforts or unpleasantness. (For example, occasional exposure to inclement weather; constant high levels of noise; regular exposure to smoke, fumes, irritating chemicals; working around machinery and its moving parts; occasional chance of injury or attack, dirt or grease; possible exposure to contagious disease; occasional work at heights; or environmental stress such as being on call for twenty-four (24) hours or prolonged pressures during emergencies.) Special safety precautions or protective clothing such as gowns, coats, gloves, shields, or boots may be required.	10
6-3	Working conditions involve considerable risks or discomforts on a continuing or regular basis. (For example, work is performed outdoors regardless of the weather, recurring chance of physical injury, frequent work at great heights or with high voltage equipment). Work involves risks as in 6-4 but these are not a daily or constant factor.	15

<i>Degree</i>		<i>Points</i>
6-4	The work involves high risks with exposure to potentially hazardous or dangerous conditions which cannot be controlled and where the possibility of physical injury or death is a daily or constant factor in the work. (For example, danger of physical attack, working at great heights during extreme weather conditions, working with explosives, etc.) Extreme care and safety precautions are required. Physical demands	25
6-A	No special physical characteristics are required to do the work. Work effort involves sitting comfortably to do the work with intermittent periods of stooping, walking, standing or lifting.	5
6-B	Work requires some agility and physical strength to move around construction sites or over rough terrain, to stand for extended periods of time, to lift occasionally moderately heavy items (i.e., weights of up to fifty (50) lbs.) to do some stretching to return or retrieve materials. May be required to work for extended periods of time.	10
6-C	Work requires moderate physical strength, to regularly lift moderately heavy items (e.g., fifty (50) lbs. boxes), to stand for long periods, to walk over rough terrain for long periods, to push and shove heavy objects; or to periodically exert strenuous effort; or the work involves demands as in 6-D but these are not a daily or constant factor.	15

<i>Degree</i>		<i>Points</i>
6-D	The work involves frequently recurring assignments requiring heavy strenuous effort to perform such work as lifting and carrying heavy objects over one hundred (100) lbs. or heavy manual labor work on a continuous basis; or the work requires periods of great physical demands to pursue on foot over rough terrain or barriers, to subdue a violent person with minimum force or to handle violent domestic situations.	25

FACTOR 7

SUPERVISION AND MANAGEMENT

This factor is designed to provide credit for supervisory and management duties that are not fully addressed by the other factors. This factor applies to positions of employees who have a regular and continuing responsibility for overseeing work performed by others. Excluded are positions of employees who supervise only on an irregular or infrequent basis (e.g., in the absence of the regular supervisor or occasional CETA personnel). Such positions are essentially supervisory and the work is properly evaluated under the other factors. Employees in some positions are responsible for recruiting and coordinating the activities of volunteers. Where volunteers work independently and for a limited number of hours as in a recreational coaching situation, and the relationship between the employee and the volunteer is typically not supervisory, no credit is given under this factor for the oversight of volunteers' activities which is properly evaluated under the other factors.

There are two (2) elements of the supervision and management factor. The first, "Scope of Supervisory and Managerial Responsibility," evaluates the extent and nature of these responsibilities in terms of the degree of involvement in work

planning and organization, work assignment and review, and personnel functions. The second element is "Scope and Character of the Subordinate Operations." This element serves to differentiate levels of difficulty required to supervise and manage program operations. These differences stem from, and are most easily evaluated by, characteristics of the operation directly overseen. This element, then, evaluates the demands placed upon the incumbent due to differences in staff size, diversity of functions or activities overseen, stability of work operations, and workforce dispersion.

Positions with less responsibility than that described in Degree 1 of element 7-A will receive no credit for this factor.

7-A Scope of supervisory and managerial responsibility

7A-1

Incumbent, as a regular and continuing part of the job, leads other workers in accomplishing assigned work and also performs non-supervisory work that is usually of the same kind and levels as that done by the group led. The work leader is responsible to his/her supervisor for assuring that the work assignments of other workers are carried out by performing duties which typically consist of most of the following: distributes and balances workload among employees in accordance with established work flow and job specialization; assures timely completion of work; instructs employees in specific tasks or explains work methods to be employed and indicates applicable reference material and guidelines; checks work progress and reviews completed work to see that instructions have been carried out; answers questions and resolves problems that arise in the work; provides on-the-job training to new employees; reports to the supervisor on disciplinary problems, performance and training needs of employees; resolves simple, informal complaints of employees and refers others to the supervisor; may approve leave for a few hours or for emergencies.

7A-2

Incumbent, as a regular and continuing part of the job, is accountable for the quality and quantity of work done by subordinates and assures the accomplishment of the assigned

work operations in the prescribed manner. Supervisory functions typically consist of most of the following: plans, schedules and coordinates work operations to meet schedules, deadlines and priorities; revises work schedules to meet changes in workload or availability of manpower; recommends and justifies to higher levels of management changes in organization of work, work methods or assignment of functions to positions that may affect staffing patterns, costs, work standards, etc.; assigns work based on varying capabilities of employees; assures that completed work meets the required standard of quality, timeliness and cost; takes corrective actions as necessary, including rejecting the work; informally recommends promotions, reassignments, pay increases or other personnel actions; oversees attendance and leave, typically including approval of ordinary sick and vacation schedules; advises employees of performance requirements and prepares formal evaluations of performance; gives advice and instruction on both administrative and work matters; informs subordinates of organizational policies, goals and procedures; resolves employee complaints and effects minor disciplinary actions, such as oral warnings and reprimands; has substantial responsibility for technical soundness of subordinates' work.

7A-3

Incumbent is accountable for the direction and success of programs accomplished through others. The manager is responsible for analyzing program objectives, determining the various work operations needed to achieve them, estimating the financial and staff resources required, allocating the available funds and staff, reporting periodically on the achievement and status of the program objective; and recommending new goals. The manager typically; formulates or recommends program goals and develops plans for achieving short and long-range objectives; determines organizational structure, operating guidelines and work operations; formulates, prepares and defends budget and manpower requests and accounts for effective use of funds and staff provided; coordinates program efforts within the unit and with other departments; delegates authority to subordinate supervisors and holds them responsible for the performance of their unit's work; reviews work in terms of

APPENDIX B—PERSONNEL CLASSIFICATION, ETC. Att. A

accomplishment of program objectives and progress reports, approves standards establishing quality and quantity of work; oversees the personnel function, including or effectively recommending hiring, training, and disciplining of employees.

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i> 7A-1	<i>Supervisor</i> 7A-2	<i>Manager</i> 7A-3
Scope and Character of the Subordinate Operation			
7B-1 Normal Staff Size			
a) 1—3 (a few)	3	6	12
b) 4—10 (small number)	6	12	24
c) 11—25 (a number)	9	18	36
d) over 25 (a large number)	12	24	50
7B-2 Diversity of Subordinate Operation			

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i>	<i>Supervisor</i>	<i>Manager</i>
a) Single unit engaged in 1 kind of work, program or function (e.g. dispatching, clerical support).	4	8	16

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i> 8	<i>Supervisor</i> 16	<i>Manager</i> 33
b) Several functions or programs which are related in nature and/or objective and which are generally organizationally or functionally distinct line units (e.g. in the Library—adult, children's and information services programs or in the Engineering Department—inspection and engineering functions).			

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i>	<i>Supervisor</i>	<i>Manager</i>
c) Diversified operations organized into separate line units, each carrying out programs or functions involving distinctly different subject matter, principles, methods and techniques (e.g., in the Public Works Department, highway, landfill and water operations.	12	24	50

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i>	<i>Supervisor</i>	<i>Manager</i>
<i>7B-3 Stability of Subordinate Operations</i>			
a) Functions, programs, work processes and staff size are well established and relatively stable.	4	8	16

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i> 8	<i>Supervisor</i> 16	<i>Manager</i> 33
b) Work operations are subject to substantial cyclic or seasonal fluctuations, or substantial changes in work procedures, activities, volume and products, which are (or can be) reasonably anticipated and planned for in advance.			

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i>	<i>Supervisor</i>	<i>Manager</i>
c) Operations are subject to frequent, and abrupt, and unexpected changes in deadlines, volume of work, work assignments, goals and/or staff size due to uncontrollable or unpredictable circumstances.	12	24	50
<i>7B-4 Workforce Dispersion</i>			

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i>	<i>Supervisor</i>	<i>Manager</i>
a) Subordinates work in the same office or location and on the same basic workshift as the supervisor.	4	8	16
b) Subordinates are physically separated from the supervisor a substantial portion of the time, either because of multishift operations or because work is being performed concurrently at several locations.	8	16	33

<i>7-A Scope of Supervisory and Managerial Responsibility</i>	<i>Work Leader</i> 12	<i>Supervisor</i> 24	<i>Manager</i> 50
c) Subordinates are dispersed to many widely separated locations on a continuing basis.

**CITY OF CLAREMONT - IN THE YEAR TWO THOUSAND
AND TWENTY-THREE
ORDINANCE #606**

Amending the City of Claremont's Merit System - Creation of Human Resources Director and Finance/Human Resources Specialist Positions; Amending the Non-Union Employee Classification Plan.

THE CITY OF CLAREMONT ORDAINS:

Pursuant to Article III, Sections 24, 25 and Article IV, Sections 51 and 52, of the Claremont City Charter; the City's Merit System as well as the Non-Union Employee Classification Plan (Attachment B) are hereby amended and readopted as follows:

Section 1. Creation and Replacement of Position in the City's Human Resources Department.

The City Council hereby establishes, by and through this Ordinance, the position of Human Resources Director which shall be included in the City of Claremont's Merit System and as part of the list of positions within the City's Human Resources Department. This new position shall replace and eliminate the existing position of Human Resources Coordinator.

Section 2. Compensation of the Human Resources Director.

The rate of compensation to be paid to the Human Resources Director shall be established within the parameters of Grade 12 of the Non-Union Employee Pay Schedule at the annualized pay scales as set forth in Attachment C (on file in the City Manager's Office).

Section 3. Creation of Position in the City's Finance Department.

The City Council hereby establishes, by and through this Ordinance, the position of Finance/Human Resources Specialist which shall be included in the City of Claremont's Merit System and as part of the list of positions within the City's Finance

Department. This is an entirely new position for the City and will not replace or eliminate any other current position within that Department.

Section 4. Compensation of the Finance/Human Resources Specialist.

The rate of compensation to be paid to the Finance/Human Resources Specialist shall be established within the parameters of Grade 7 of the Non-Union Employee Pay Schedule at the annualized pay scales as set forth in Attachment C (on file in the City Manager's Office).

Section 5. Non-Union Employee Classification Plan.

The compensation of every non-union employee of the City shall be determined by the classification of the job in which such person is employed and in accordance with Attachments Band C to the City's Merit System (which are on file in the City Manager's Office). Upon adoption of this Ordinance, the new version of the Non-Union Employee Classification Plan (Attachment B), which is an exhibit to this Ordinance, shall be implemented with the proposed changes contained therein and consistent with this legislative act.

Section 6. Prior Enactments Superseded.

The Non-Union Employee Classification Plan as adopted by action of the City Council concerning those set forth in Attachment B, prior to adoption of this Ordinance, and all prior amendments thereto, are hereby repealed as they pertain to same.

Section 7. Validity.

If any article, section, subsection, sentence, clause or phrase of this Ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this Ordinance.

Section 8. Effective Date.

This Ordinance shall take effect and be enforced immediately upon passage, but shall be retroactive to the first day of the month in which it is passed upon third reading.
