

The Claremont City Council held a meeting on Wednesday, March 22, 2017, in the Council Chambers of City Hall.

The meeting was called to order by Mayor Lovett at 6:30 p.m.

Members of the Council present were:

Ward I Councilor Carolyn Towle
Ward II Councilor Scott Pope
At-Large Councilor Keith Raymond
Assistant Mayor Victor Bergeron
Mayor Charlene Lovett
At-Large Councilor Allen Damren
At-Large Councilor Bruce Temple
Ward III Councilor Nicholas Koloski
At-Large Councilor John Simonds

Also present were:

Ryan McNutt, City Manager

AGENDA CHANGES

None

MAYOR'S NOTES

Mayor Lovett thanked the public for coming out to vote last week. There was a 9% voter turnout. Because of the approval of the Charter Amendments, including the one to change the residency requirement for certain department heads, the City Manager will appoint Interim Public Works Director Scott Sweet to Director effective July 1, 2017.

Mayor Lovett said there will be a joint Council/School Board meeting on March 30th, 6 p.m., Sugar River Valley Regional Technical Center.

Mayor Lovett talked about New York City's First Lady Chirlane McCray's mayoral coalition called Cities Thrive. There are 132 mayors advocating for a better funded and more integrated behavioral health system locally and nationally. If the Council supports Claremont being a part of this coalition, Claremont will receive updates to changes in mental health care, funding, etc. She asked Councilor's if there was a reason to not be a part of the coalition. There is no obligation other than her calling them once a month to share information. This is a bipartisan effort. Mayor Lovett will send Councilors some background information. There were no objections from the Council, so Mayor Lovett will move forward with this. She said Ms. McCray is familiar with Claremont as her mother went to Stevens High School.

Mr. Koloski said he is working with the state to bring a filmmaker's roundtable to Claremont. The last one we had here was three years ago, and there were animators from The Simpsons in that group. They are working to get some people from North Woods Law to come to the event.

Mr. Raymond said part of the first episode of North Woods Law was filmed in Claremont, at the boat launch. It airs on Animal Planet.

CITIZEN'S FORUM

Bonita Miles, Ward 2, was concerned about safety regarding the big, open "windows" on the landing as you are going up to the Opera House. The openings start at 24 inches from the floor. She suggested plexiglass with fancy trim be placed to bring the opening up to a safe level.

Mr. Raymond suggested installing a railing would be a good idea.

Bernie Folta, Ward 3, commented about the citizen's complaint that was in the packet regarding the inability to enter a complaint on the website in its entirety. He hoped that it along with other flaws such as navigation would be fixed soon.

OLD BUSINESS

JSL and Church/Conference Center Updates

Nancy Merrill, Planning and Development Director, said the JSL (Junior Sports League) building bid was due this past Friday and no bids were received. She spoke with the City Manager and it was agreed to pull back on this in order to review. The RFP for the Conference Center will be posted on Friday with bids due May 5th. The building may currently be in use; she will address that.

Mayor Lovett said the Claremont Opera House submitted a request for a grant to restore the grand drape. The grant was received. They were going to use the church for the restoration. Ms. Merrill said a solution will be found. Mayor Lovett said the grand drape should be placed on the list of historical artifacts.

Ms. Merrill said a City-owned lot at the corner of North and Chellis Streets will be posted as well. There is not a lot of City need for that lot.

Finance Committee Discussion

Mayor Lovett said the Council needs time at the committee level to do in depth analysis to be able to recommend to the full Council items that impact fiscal policy. The committee will be made up of three Councilors. She understands that if this is not done well, there is a danger of micromanaging the City Manager which can be dealt with using bylaws, rules & responsibilities.

Mr. Pope was concerned about having a noninterference clause.

Mayor Lovett said at Council meetings that Councilors don't have enough time and some don't have as much of an interest in finance as others, so having a committee with a focus on finance gives members of the Council who choose to do so a chance to really focus on that area.

Mr. Bergeron agreed that a noninterference clause is important.

Mayor Lovett said the public will be allowed to give input.

Mayor Lovett said the committee is for developing fiscal policies from a global perspective. Where does the community want to go fiscally? What are the benchmarks? The Council needs to be able to measure success. The committee will do the legwork to develop a recommendation to the Council. It will be like the Policy Committee, but with a focus on fiscal policy. Mayor Lovett asked for a vote of the Council to go ahead or not, keeping in mind that by-laws will be developed, reviewed and approved for the committee.

A motion was made by Mr. Damren and seconded by Mr. Bergeron to vote in favor of forming a finance committee in accordance with the initial recommendation from the Assistant Mayor and substituting three Councilors instead of two Councilors and a public representative.

Mr. Koloski said there are nine sitting Councilors that make the decisions for the City. He was concerned about adding another layer where a select number of Councilors will meet to go over more in-depth information that the rest of the Council will not have at the same time and then the committee will be making decisions that will be referred to the full Council. It was very vague to him about what will be done, so he will vote no. He preferred to have information prior to this meeting about what the make-up of this committee would be.

Mr. Pope said his information and Mr. Bergeron's information had been sent to the Council previously.

A motion was made by Mr. Temple and seconded by Mr. Bergeron to amend the motion that after a one year trial, the committee would sunset or be renewed.

Voice vote on the amendment. Motion carried 8-1 with Mr. Koloski voting no.

Mr. Bergeron said the subcommittee will have no authority to make decisions for the Council as a whole.

Mr. Koloski said he feels this should have been listed as a public hearing and opened up for public comment.

Mayor Lovett said she heard one common topic of discussion on the Charter Committee was for a finance committee.

Mr. Koloski said he was on the Charter Commission and the topic was for it to be a citizen committee.

A motion was made by Mr. Damren and seconded by Mr. Bergeron to vote in favor of forming a finance committee in accordance with the initial recommendation from the Assistant Mayor and substituting three Councilors instead of two Councilors and a public representative. After a one year trial, the committee would sunset or be renewed.

Voice vote on the amended motion. Motion carried 8-1 with Mr. Koloski voting no.

NEW BUSINESS

Current Use Update

Marlene Jordan, Assessor, said that there are 5,455 parcels in Current Use in Claremont which is 26,537 acres of land and is approximately 69% of Claremont's land mass. The value of the land in Current Use for 2016 is \$1,101,730. The City receives \$46,955.73 in tax revenue for that land.

Mr. Damren asked about the success rate after a property owner has been notified to correct a deficiency. Ms. Jordan said less than half. For those that don't respond, she uses her best estimate, sends out an LUCT (land use change tax) and then it is up to the owner to challenge it.

Mr. Temple asked about the subranges in each category. He would like to know where the properties are in the subranges. Ms. Jordan can do a spreadsheet.

Mr. McNutt asked if three-fourths of these parcels are owned by non-Claremont residents. Ms. Jordan said yes.

Ms. Jordan will include an overview of the Current Use program in the report.

Mr. Koloski asked if Ms. Jordan has adequate resources to handle this in the quickest way possible. If not, she should get the resources she needs.

Mr. McNutt said the City is working to find every Current Use parcel that has had a land use change and to pull it out of Current Use. He has created an economic development team, made up of Assessing, Planning and Finance. They will work on how to get as much value out of Current Use as quickly as possible.

Bernie Folta, Ward 3, said the purpose of Current Use originally was to protect land from development. Instead of being taxed at fair market value, by enrolling a parcel in Current Use, the owner gets a tax break.

Mary Walter, Finance Director, would like to know what the potential value of those properties would be without the Current Use law.

Mr. McNutt said the Current Use provision was created by the state. He asked if Current Use came about before the ability to have land conservationally restricted. Ms. Jordan will look into that.

Ms. Jordan could come back at the end of April. Mayor Lovett will invite the Delegation to the meeting.

Strategic Planning Session Discussion

**Fiscal
Responsibility:**

Item 1- Continue establishing clear operating procedures regarding economic development which will position the City to expand its tax base, recapture lost valuation, raise the median household income, and attract a talented workforce.

- A. Downtown area- Develop options for revitalization (i.e. 79E) that make it not only attractive to business, but also a young work force. Aggressively market these options.
- B. Strategic Marketing Plan identifying Claremont as having centers of excellence/business hubs (i.e. IT, high quality wood based products, precision manufacturing)
- C. Action Plan for neighborhood improvements in the downtown area with associated costs
- D. Compliance of property maintenance codes (w/ particular attention to absentee landlords)
- E. Expand efforts to support existing employers and their growth, using current technology and marketing trends to promote them whenever possible.

Council Actions/Directives:

(1)- Identify ordinances that directly relate to economic development, prioritize and refer to Policy

Committee for review/update.

(2)-Establish a Joint Task Force of stakeholders to address the downtown area

(3)-Explore establishing a Finance Committee to review budget and provide recommendations to Council ensuring economic development goals are properly funded

- (4)-Establish quarterly meetings with SAU #6 with clear agendas and desired outcomes*
- (5)-Examine Downtown TIFD*
- (6)-Increase working knowledge of successful economic development initiatives by attending conferences, lectures, webinars, etc.*
- (7)-Collaborate with legislative representatives to create/support bills that provide new economic development incentives*

Item 2 - Continue to collaborate with SAU #6, Granite State College and River Valley Community College as effective economic development and workforce development partners.

- A. Workforce Development – Meet with local employers, identify and document needs and develop a plan to address those needs with educational and other relevant partners

Council Actions/Directives:

- (1)-Establish quarterly meetings with SAU #6 with clear agendas and desired outcomes*
- (2)-Establish semi-annual roundtable discussions with Granite State and RVCC*

Employee Development

Item 2. Focus on preparations for the next round of collective bargaining scheduled to begin in 2016.

- A. Establish collective bargaining timeframe with each unit, and identify negotiating team members

Council Actions/Directives:

- (1)-Review current negotiated contracts in preparation for collective bargaining*
- (2)-Mayor to assign a council member to each negotiating team to act as a conduit to the Council during negotiations*

Item 3. Effective organizational stability and growth includes succession development.

- A. Provide comprehensive overview to incoming city manager to ensure smooth transition.

Council Actions/Directives:

- (1)-Establish procedure for hiring new manager (i.e. search firm, search committee, etc)*
- (2)-In the event that a search does not produce a viable candidate, establish plan to hire an interim city manager*
- (3)-Ensure that the 2017 budget includes funds for search*

(4)-Review job description and update as necessary

Public Health, Safety and Welfare

Item 2. Continue review of city owned property to assist in putting it to its best use and/or marketing it for sale.

- A. Develop action plan for the timely divestiture of property taken via tax deed; recouping lost tax revenue and moving property back onto the tax roll
- B. Provide Council with comprehensive listing of tax-deeded property, city property and abandoned property.
- C. Develop maintenance plan for city properties *and*, if no use is designated, send out RFPs for use

Council Actions/Directives:

(1)-Acquire training with regard to the tax deeding process in order to provide better direction

(2)-Identify ordinances pertaining to the maintenance/divestiture of city-owned property and forward to policy committee for review.

Item 3. Continue to use available resources to tackle needed *road*, water and sewer infrastructure improvements

- A. Provide Council overview of water and sewer system, to include upgrades completed, current issues/needs, and plan to address those issues according to a priority system with cost structure
- B. Allocate a minimum of \$500k for road maintenance in budget proposal
- C. Provide plan to upgrade sidewalks in the downtown area and throughout main arteries
- D. Aggressively pursue grant opportunities to fund infrastructure improvements

Council Actions/Directives:

(1)-Identify ordinances that relate to above items, prioritize and send to Policy Committee for review/update.

(2)-Review Sewer/Water Rates and consider options for upgrading water/sewer infrastructure

(3)-Ensure roads and sidewalks are funded as aggressively as possible given current resources

(4)-Collaborate with legislative representatives to create/support bills that provide new or increased revenue sources for infrastructure improvements

Mayor Lovett said the Goals and Objectives for 2016 were approved by the Council 2/10/2016. Councilors discussed the Council Actions/Directives portion.

Fiscal Responsibility, Item 1, (1)- Identify ordinances that directly relate to economic development, prioritize and refer to Policy Committee for review/update.

Mayor Lovett said some ordinances were sent to the Policy Committee for review, but they didn't refer to economic development. This will continue.

Mr. McNutt said a way to facilitate that would be to invite a Councilor liaison to his Economic Development Team (EDT).

Mr. Bergeron said the interim City Manager asked each department to look within itself to see what ordinances need to be looked at and to give that information to the Policy Committee.

Mayor Lovett said it would be good to have a liaison on the EDT.

Mr. McNutt agreed that departments could look at their ordinances.

It was the consensus of the Council to keep this as a goal/objective.

Fiscal Responsibility, Item 1, (2)-Establish a Joint Task Force of stakeholders to address the downtown area

Mr. McNutt said turning around downtown Claremont is going to take a multifaceted approach. The EDT is one part. The second team he put together is a code enforcement team. If used appropriately, these will bear fruit.

Mayor Lovett clarified that because of what Mr. McNutt said, this item has been moved to the operational level. Mr. McNutt agreed.

Mr. McNutt said he will work with the EDT, Planning and Development office and the code enforcement team. He will bring in other stakeholders (i.e. Chamber, property & business owners of downtown, and other groups) as needed. He will try to get together those who have a stake in the downtown area in the springtime.

Mayor Lovett suggested rewording "*Establish a Joint Task Force of stakeholders to address the downtown area*" to "*Engage a Joint Task Force of stakeholders to revitalize the downtown area*" and then move it to the operational section under E. Consensus.

Mr. Damren suggested for a future Council meeting that Planning and Development Director Nancy Merrill provide a presentation on what they've done.

Fiscal Responsibility, Item 1, (3)-Explore establishing a Finance Committee to review budget and provide recommendations to Council ensuring economic development goals are properly funded

Mayor Lovett said this has been done and this item should be removed. Consensus.

Fiscal Responsibility, Item 1, (4)-Establish quarterly meetings with SAU #6 with clear agendas and desired outcomes

Mayor Lovett said this is being done. Continue quarterly meetings. Consensus.

Mr. McNutt said he and School Superintendent Middleton McGoodwin will meet weekly to coordinate City/school initiatives.

Fiscal Responsibility, Item 1, (5)-Examine Downtown TIFD

Mr. Pope suggested leaving this as is for now considering what the City Manager is working on now. Consensus.

Mary Walter, Finance Director suggested monitoring the progression of the Downtown TIFD. Consensus.

Fiscal Responsibility, Item 1, (6)-Increase working knowledge of successful economic development initiatives by attending conferences, lectures, webinars, etc.

Mayor Lovett said several Councilors are doing that. Leave as is. Consensus.

Fiscal Responsibility, Item 1, (7)-Collaborate with legislative representatives to create/support bills that provide new economic development incentives

Mayor Lovett suggested to add to that “or secure state funding.”

Fiscal Responsibility, Item 2, (1)-Establish quarterly meetings with SAU #6 with clear agendas and desired outcomes

Mayor Lovett this is being done and will continue. Consensus.

Fiscal Responsibility, Item 2, (2)-Establish semi-annual roundtable discussions with Granite State and RVCC

Mayor Lovett said she is the chair of that advisory council and Mr. McNutt is on the council at RVCC. She thinks the City Council should try to get that done this year. Consensus.

Mr. Simonds asked to invite the new RVCC president to a Council meeting. Mayor Lovett will invite him.

Employee Development, Item 2 (1)-Review current negotiated contracts in preparation for collective bargaining

Mayor Lovett said that is underway. Remove. Consensus.

Employee Development, Item 2 (2)-Mayor to assign a council member to each negotiating team to act as a conduit to the Council during negotiations

Mayor Lovett said that has been done. Remove. Consensus.

Employee Development, Item 3 (1)-Establish procedure for hiring new manager (i.e. search firm, search committee, etc)

Mayor Lovett said that is done. Remove. Consensus.

Employee Development, Item 3 (2)- In the event that a search does not produce a viable candidate, establish plan to hire an interim city manager

Mayor Lovett said that is done. Remove. Consensus.

Employee Development, Item 3 (3)-Ensure that the 2017 budget includes funds for search

Mayor Lovett said that is done. Remove. Consensus.

Employee Development, Item 3 (4)-Review job description and update as necessary

Mayor Lovett said this was partially done in the hiring process. Council agreed that the City Manager should review the job description (at a future date) and provide feedback to the Council. Councilors agreed to review it as well.

Public Health, Safety and Welfare, Item 2 (1)-Acquire training with regard to the tax deeding process in order to provide better direction

Mayor Lovett will set up an NHMA presentation. Consensus.

Public Health, Safety and Welfare, Item 2 (2)- Identify ordinances pertaining to the maintenance/divestiture of city-owned property and forward to policy committee for review.

Mayor Lovett said that has not been done yet. Continue. Consensus.

Public Health, Safety and Welfare, Item 3 (1)-Identify ordinances that relate to above items, prioritize and send to Policy Committee for review/update.

Mayor Lovett said that still needs to be done. Continue. Consensus.

Public Health, Safety and Welfare, Item 3 (2)-Review Sewer/Water Rates and consider options for upgrading water/sewer infrastructure

Mayor Lovett said that is being done. Remove. Consensus.

Public Health, Safety and Welfare, Item 3 (3)-Ensure roads and sidewalks are funded as aggressively as possible given current resources

Mayor Lovett said this is ongoing. Continue. Consensus.

Public Health, Safety and Welfare, Item 3 (4)-Collaborate with legislative representatives to create/support bills that provide new or increased revenue sources for infrastructure improvements

Mayor Lovett said this is ongoing. Continue. Consensus.

Mayor Lovett said between now and the next meeting, if Councilors want to add anything, bring it to the next meeting and then they will finalize the document.

FY17 Budget Overview – Current Status

Mr. McNutt said for the FY 17 budget, some departments are underspent and some have exceeded their budgets. Public Works will exceed their winter budget. They have expended 2,174 tons of salt \$153,442 and 3,571 tons of sand \$24,977. They have used 394.5 hours of overtime. They are at 110-120% of their winter budget.

Mr. McNutt said in April there will be a resolution to add funds to Welfare. There have been delays in people receiving their tax returns and there are other various reasons. The Police Department is underspent in its personnel line items. Some police officers have moved to other agencies. The Fire budget still has funds remaining from the SAFER grants. We have authorization from the SAFER folks to extend the grants and we will be able to carry those firefighters longer than anticipated. Other departments are tracking along with what is typically spent.

Mr. Damren asked what the contingency plan is if the CSB Community Center goes over the \$500,000 differential between revenue and expenses.

Mr. McNutt said that the difference is expected to be in the higher \$400,000 range. He said he is working with Parks and Recreation Director Mark Brislin on some of the contracts, such as cleaning.

Mr. McNutt is talking with area business folks to help him and Mr. Brislin find all the best practices.

Mayor Lovett said this is an excellent substitution for an efficiency study, which came back as too expensive.

Mr. Koloski asked about parking at the CSBCC.

Mr. McNutt said Mr. Brislin has identified a couple of adjacent parcels and they are being evaluated.

Mr. Raymond said regarding the \$500,000 number for the CSBCC, if the City kept the old community center, that amount would have continued to grow.

There was discussion about keeping up with maintenance and repairs for the CSBCC.

Mr. McNutt said there will always be a municipal expenditure toward the community center. This building belongs to the people of Claremont. This is not a business. It should bring in enough revenue to make the expenditures as neutral as possible. There will likely always be community expenditures to have this as a community resource.

Mr. Bergeron said he would not be in favor of the expenditures being more than \$500,000 over the revenues. He doesn't think you can increase the programs without increasing the membership dues.

Mr. McNutt said the last increase in membership dues reduced the number of memberships. Mayor Lovett would like to know how they came to that conclusion.

Mr. McNutt said he is interested in learning how much outside programmatic activity can be brought in and whether or not we are doing the most with the space we have to bring in outsiders to do their activities and paying the City.

War Memorial Names

Mayor Lovett said last year she received a request from Scott Fitch, Stevens High School 1961, that Joe Formichelli be added to the War Memorial. When Mr. Formichelli returned home, he died from an aneurism. The family wants his name added the memorial. She hopes to get this done before Memorial Day. Also, she thinks there should be a policy written up on how to get this done in the future.

A motion was made by Mr. Raymond and seconded by Mr. Pope to add Joseph Formichelli's name to the Vietnam War Memorial.

Voice vote: motion carried 9-0.

Mayor Lovett asked when it goes to the Policy Committee, if the cost of the engraving would be included so the family doesn't have to pay for it.

Mr. Damren suggested that each Councilor split the cost to do the engraving. Mr. Koloski agreed.

Mr. Koloski asked about the status of the two large stones in City Hall.

Claremont Clean-Up Month Discussion

Mr. McNutt said there will be a free tire take back day on April 22 at the Transfer Station. During the week of April 17th, Public Works will go around to pick up yard waste.

Mr. McNutt talked about having a community-wide clean-up in April. He thanked Public Works for coming up with quality ideas. Some of the ideas were: mapping out sections of Claremont to clean up; Public Works will supply trash bags; invite the media; have a City-sponsored cookout afterward at the CSBCC; give out prizes (oldest/youngest, cleanup largest area, etc.); businesses will be solicited to donate water, etc.; City will supply dumpsters, bags, gloves, refreshments; talked to Valley Regional Hospital about getting sharps buckets.

Mayor Lovett asked if during this month, emphasis can be placed on the cleaning up of the empty store fronts and glass windows.

Mr. Pope suggested contacting Stevens High School as the students need to have a certain number of community service hours in order to graduate.

Preservation and Display of Historical Claremont Artifacts Discussion

Mayor Lovett said the idea from the Council perspective is to have a complete inventory of all historical artifacts within the City. Regarding the marble tablets in City Hall, they date back to about 1865-6. One thing to discuss is how to properly display them; they've been vandalized. Also, documentation of the value and history would be needed. They need to be stored properly and protected. She asked Mr. McNutt who should be doing this and how to get it done.

Mr. Koloski suggested forming a committee of people with interest in this, similar to the 250th Committee. He said grants may be available. The committee could do fundraising and inventorying. He suggested each department do an inventory of the things in their areas. He suggested displaying more artifacts in the downstairs atrium.

Mayor Lovett said they will form a mission statement and do an all call.

Mr. Bergeron said the first thing is to do an inventory. Mayor Lovett suggested the City Manager direct the department heads to do that.

Mr. McNutt would want to be careful to not create more work for staff searching for things.

Mayor Lovett said she can put this information in an article for distribution.

FUTURE AGENDA ITEMS AND DIRECTIVES

Ms. Towle asked about combining a site visit to the river/smokestack with a visit to the community center.

Mr. Koloski wants to make sure the Conservation Commission is included.

Mr. Damren suggested having the City Manager arrange with Parks and Recreation to point out what maintenance work needs to be done so that information can be used when asked to add a maintenance person.

Mr. Koloski talked about the NH First Impression Assessment application being due April 3rd. Mr. McNutt saw that and passed it on to Nancy Merrill.

Mr. Koloski said Manchester established a cultural arts district that overlaps the downtown area. It allows further access to grant funding. He suggested Claremont look into it.

Mr. Koloski asked if the online complaint form had been fixed. Mr. McNutt said the City needs to be more diligent about the website. He said Mr. Bergeron had pointed out some alternate providers that might have better websites.

Mr. Raymond asked about the Main Street construction status. Mr. McNutt will follow up. Mayor Lovett suggested incorporating it into the City Manager's Report.

Mr. Damren asked about the letter of complaint that was included in the packet and whether or not it was referred to the proper department. Mr. McNutt said it was referred to NICE (Neighborhood Improvement through Code Enforcement). Mr. McNutt will touch base with the Police Chief on this.

Mr. Koloski said the issue is between neighbors. Our municipality doesn't have anything on the books preventing someone from dumping snow on a neighbor's property.

Mr. Simonds explained the difference between civil law and criminal law and this is a civil matter.

Mr. Koloski asked for an update regarding the enforcement action downtown. Mr. McNutt said the Goddard Building, 54-62 Pleasant Street, had been noncompliant with codes over many years. The building was ordered condemned and vacated. Suzanne Carr, Welfare office, worked with some of those folks and had to place four people, expending \$2,200 of City funds toward the effort. The building owner returned last month's rent and deposits to the renters. These actions will continue against these types of places.

Mr. Bergeron talked about involving veterans' groups (i.e. veterans council) to help with the memorial discussions.

Mayor Lovett said she had a vision of a veterans council having reps from all veterans groups in town, as well as a military person that does not belong to any of those groups, and a family member of a military person. That group would recommend to the City Council any matters or policies that would have to be taken up that are veteran/military associated.

The other thing she would like to see from the veterans council is to help with the Memorial Day parade and Veterans Day events, etc. She asked if the public would like to see more done with the Memorial Day parade, reach out to the Council or City Manager. She would like to see more effort put into the Memorial Day parade.

CONSULTATION WITH LEGAL COUNSEL

None

ADJOURNMENT

At 9:31 p.m., a motion was made by Mr. Damren and seconded by Mr. Simonds to adjourn.

Voice vote: motion carried 9-0.

Respectfully Submitted,

Dorée M. Russell
Clerk to the Council
