

The Claremont City Council held a meeting on Wednesday, February 12, 2020, in the Council Chambers of City Hall.

The meeting was called to order by Mayor Lovett at 6:30 p.m.

Members of the Council present were:

Ward I Councilor Andrew O’Hearne
At-Large Councilor Abigail Kier
At-Large Councilor Erica Sweetser
Mayor Charlene Lovett
At-Large Councilor Debora Matteau
At-Large Councilor Nicholas Koloski
Ward II Councilor James Contois
Ward III Councilor Jonathan Stone

Absent:

Assistant Mayor Allen Damren

Also present:

Edward Morris, City Manager

AGENDA CHANGES

Mayor Lovett asked to move 10 A. Road Maintenance 101 For Administrators & Elected Officials to follow 9 A. Water Street Parking.

Mr. O’Hearne asked to also move 10 E. Council Rule Change and 10 D. Discuss Planning Board Change from 1/22/2020 above A and B because they were moved from previous meetings.

After some discussion, Mayor Lovett assured that the Council will get to those items this evening. She asked that in the future, if there are concerns about the scheduling of items on the agenda, to let her know beforehand.

REPORT OF THE SECRETARY

A motion was made by Ms. Kier and seconded by Mr. O’Hearne to accept the minutes of the November 7, 2019, City Council meeting.

Voice vote: motion carried 8-0.

A motion was made by Mr. Stone and seconded by Ms. Matteau to accept the minutes of the January 2, 2020, City Council meeting.

Roll call / Voice vote: motion carried 8-0.

A motion was made by Ms. Matteau and seconded by Mr. Stone to accept the minutes of the January 8, 2020, City Council meeting, as amended.

Mayor Lovett said on page 10 regarding the emergency grant application, Ms. Kier asked whether the CDBG action nullifies the previous agreement of the City providing \$6,000 toward shoring of the wall. Also, Mr. Koloski asked about the timeline for the notification of the emergency grant being awarded. Planning and Development Director Nancy Merrill said it will be at the next board meeting and, if approved, will go to Governor and Executive Council in March. Ms. Merrill anticipated the NEPA study would be done while the grant application is going through the process. Mr. LaCasse said that he would pay for the study out of pocket in order to keep the ball rolling. Mayor Lovett said it was important to put this information in the minutes.

Mayor Lovett said on page 13, the discussion of refugees should read, "Mayor Lovett reviewed the President's Executive Order requiring Governors and Mayors to give consent in order to accept refugees as outlined in her email to the Council. As an update to that, the neighboring communities of Lebanon and Hanover have taken additional action and Lebanon has adopted a resolution consenting to receiving refugees. This is symbolic in nature, as confirmed by the State Refugee Coordinator, as neither municipality has a Resettlement Agency. However, once resettled, refugees are free to move to other municipalities. All of this has spurred questions from the public about the process and what it would take to have a resettlement agency in Claremont. Mayor Lovett forwarded that question to the State Refugee Coordinator and will relay the response upon receipt."

Voice vote: motion carried 8-0.

A motion was made by Ms. Matteau and seconded by Mr. O'Hearne to accept the minutes of the January 22, 2020, City Council meeting.

Mayor Lovett said there was a page missing in the uploaded version of the minutes.

Ms. Matteau withdrew her motion and Mr. O'Hearne withdrew his second.

Move to next meeting.

MAYOR'S NOTES

Volunteer Recognition - Robert Landry, Dan Decker and Michael Stringer

Mayor Lovett said the criteria for Volunteer Recognition is that they would have served for at least 10 years.

Council awarded Certificates of Appreciation to the following:

- Dan Decker for over 25 years volunteering with the Key Club 1994 to 2020.
- Robert Landry for over 50 years volunteering with the Kiwanis Club of Claremont 1969 to 2020.
- Michael Stringer for over 27 years volunteering as a Call Firefighter and member of the Claremont Firefighters Association 1992 to 2020.

Mayor Lovett's Notes:

- 13th Annual Cardboard Sled Race and a pancake breakfast will be held Saturday at Arrowhead Recreation Area
- Claremont Opera House - February 16 pop up event, Sinatra Songbook, Valentine matinee
- In April, Turning Points Network Steppin' Up fundraiser. She asked if members of the Council and/or School Board would be interested in forming a team.
- Last year she was appointed to the state Workforce Innovation Board. They met this morning and the focus was on reviewing a strategic plan for workforce development. More details will come forward at the next meeting.
- Thank you to everyone who came out to vote

CITY MANAGER'S REPORT

- **Project Closeouts** – Thanked Thomas Krebs for his work on the East Street/Rail, Main Street Reconstruction, and Myrtle Street Safe Routes to School projects. He inherited those projects when he was hired. He quickly stepped in, attended extra training classes, and took charge of managing those three projects. The closeout paperwork on those three grants has been submitted.
- **Board of Assessors** - The Board of Assessors had their first meeting on February, 5th. There are two members on the Board and the City is looking for a third volunteer to fill the Board.
- **HR Manager** – Introduced Samantha Lauzon, Human Resources Manager, who started with the City on January 27th.
- **Water Meter Penalty** – At the December 11th City Council meeting the Council approved a \$45 dollar penalty for those customers who have not upgraded their water meters. Those letters were not mailed prior to the January billing cycle. Public Works Director St. Pierre has been asked to mail the letters soon so that customers will have plenty of time to get new meters installed prior to the April billing cycle. As requested, Mr. St. Pierre will give an update after April, and prior to the July billing. Notices will go out this week.
- **Strategic Planning** – On February 5th a group of City Councilors and staff (Mayor Lovett, Councilor Kier, Councilor Matteau, Police Chief Chase, Planning and Development Director Merrill, Public Works Director St. Pierre, and City Manager Morris) attended a Strategic Planning session hosted by Primex. They worked through a strategic planning scenario looking at ways to grow the City of Claremont. They focused on three strategic

objectives, which were healthy housing, building pride in our community, and City Center development. Mr. Morris hopes to work with the entire Council, with staff support, to create a long-term strategic plan for the City.

- **Drapers Corner** – Traffic signal part has been received, but it doesn't work. Contractor coming back to look at it.
- **Legal Assistant Job Description Change** – Has been working with the Clerical Union to move the Legal Assistant position from a Merit Plan position, to a Clerical Union position. He readvised the Council of this change in his City Manager's Report, and included the same documents from last meeting with the addition of the minutes from the Personnel Advisory Board in the packet. Unless the Council objects to this job description change, he plans to implement the change on February 24th.
- **Compensation Study** – Paypoint HR will be in the City March 5 & 6 meeting with staff. He thinks it is a good idea to hold a special Council meeting on March 5th, 6:30 p.m., for Paypoint HR to talk to the Council about how they will go through the process. Council agreed.

There was a discussion regarding the Legal Assistant job description change.

Mr. Morris said the employee is going through paralegal training. She appears to be a really good fit to help in Human Resources, Assessing, and the City Manager's office. What she is doing does seem to fit in the Clerical Union. She is doing some legal work, without a lot of confidentiality. The MOU (Memorandum of Understanding) was being worked on when he was hired. The Merit Plan needs some updates, including this change, but Mr. Morris recommended waiting until the Compensation Study is complete. This position will be moving into the Clerical Union.

Mr. O'Hearne is concerned because the Council created a Legal Assistant position, but the job description doesn't have the title of Legal Assistant. This is being called Office Assistant, but there is no job description for it. He's confused about the different names. Mr. Morris said that was done before he came here.

Mr. Morris said the 30-day notice period to the Council for changing this position started when he discussed this at the last Council meeting. He said legally, he could have emailed this notification to the Council, however, it was a good discussion to have in order to clear up some confusion. If the Council disagrees with this, the Union will petition the PELRB (Public Employee Labor Relations Board), and they would probably win.

Mr. Morris asked what Mr. O'Hearne wants him to look into.

Mr. O'Hearne asked what was presented to the PAB (Personnel Advisory Board). Mr. Morris said it was what the Council has received.

Mr. O'Hearne said he doesn't think he was given enough information.

After some discussion, Mr. O'Hearne asked if the 30 days can be reset from tonight. Mr. Morris said he can talk to the Clerical Union.

Mr. Morris said he can move this to after the next Council meeting. There were no objections. Mr. Morris said if the Union doesn't want to wait, they can petition the PELRB.

APPOINTMENT TO BOARDS AND COMMITTEES

There was a brief discussion about Mr. Damren's resignation from the Planning Board. His resignation letter was not distributed to the Council. Mr. Koloski said it was distributed to the Claremont Planning Board. Filling the Claremont Planning Board Seat 9 City Councilor seat will be discussed at the next meeting.

Policy Committee

Bonita Miles and Matthew Mooshian had both applied for seat 5 of the Policy Committee.

Mr. Stone nominated Bonita Miles to seat 5 of the Policy Committee.

Ms. Kier nominated Matthew Mooshian to seat 5 of the Policy Committee.

Ms. Sweetser said she was uneasy replacing Ms. Miles when Ms. Miles was under the impression that she would be re-appointed to the Policy Committee.

Ms. Kier said she has worked with Ms. Miles on the Policy Committee and she appreciated Ms. Miles' work. However, she said Mr. Mooshian is a great member of the community and he has a great point of view. She is excited to see a young person getting involved.

Mr. O'Hearne suggested checking with the Policy Committee to see if they wanted to add another public seat to that committee. Mayor Lovett said on the next agenda, there will be a discussion of adding an Alternate member on the Policy Committee. She suggested approving one applicant tonight and if the Alternate seat is approved, appoint the other person to that seat.

Ms. Matteau seconded the nomination for Ms. Miles.

Mr. Koloski seconded the nomination for Mr. Mooshian.

Councilors voting for Bonita Miles: Mr. Stone, Mr. Contois, Ms. Matteau, Ms. Sweetser, Mr. O'Hearne and Mayor Lovett.

Councilors voting for Mr. Mooshian: Mr. Koloski and Ms. Kier.

Mr. Koloski thanked Mr. Mooshian for coming out to the meeting. He said there are over 40 vacant board seats and invited Mr. Mooshian to apply for one.

Mr. Contois thanked Mr. Mooshian for applying and said his board experience is needed on other City boards.

CITIZEN'S FORUM

No one spoke.

OLD BUSINESS

Water Street Parking

Nancy Merrill, Planning and Development Director, introduced Lorna Rae Phileson, Red River, who spoke to the Water Street Parking request. She said Red River (RR) chose Claremont for its corporate headquarters and invested in Claremont to do so. They are a growing company. They are partners with international companies, who come to visit them. Their presentation on Water Street needs to represent their stature in the industry. RR supports the City by housing people, and at restaurants. RR has contributed to the community through its charitable foundation. They want to continue to contribute to the City, but they need the parking; parking is scarce in their area. They are doing maintenance on their historic building all the time. They share handicap spaces with the Common Man guests; they have a good relationship. They need contractors to be able to have parking spaces. Also, RR is looking for parking spaces for guests. They are hoping the City considers providing spaces to them. They want visitors to be impressed with Claremont. RR will maintain the area with bushes and signage.

A motion was made by Mr. Stone and seconded by Ms. Matteau to authorize the City Manager or his designees to mutually terminate the license agreement dated July 28, 2015 with Red River for handicapped accessible parking spaces on the south side of Water Street across from 21 Water Street, and to negotiate and take all such actions as may be required to execute a multi-year parking rental agreement for the 2 Red River handicapped spaces and the 3 NFR handicapped spaces previously licensed in the same location for the creation of 8 parking spaces to include handicapped accessible and non-handicapped accessible parking.

Mr. Morris said the agreement will be the similar to the Goddard Block at \$25 a month per space. The City will maintain the spaces. RR will do landscaping around the area. He said he can talk to the Police Chief about parking enforcement for those spaces.

When asked, Ms. Phileson said there are two reserved handicap parking spaces on each floor of the parking garage for RR.

Ms. Phileson said all employees have parking hang tags and tags will be given to guests, as well.

Ms. Merrill said the number of years for the contract will be part of the negotiations. The Goddard Block is for 20 years with 5-year readjustments on the rent.

Voice vote: motion carried 8-0.

Road Maintenance 101 For Administrators & Elected Officials

Jeremy Clay, Assistant Public Works Director introduced Bobby Betsold, UNH Technology Transfer Center.

Mr. Betsold showed a PowerPoint presentation, Road Maintenance 101:

- Presentation Outline
 - About your roads
 - Pavement Maintenance Strategies
 - Pavement Maintenance Treatments
 - Budgeting & Network Approach
- What Role Do Your Roads Play
 - Commuting
 - Services
 - Commerce/Shipping
 - Tourism
 - Recreational
- Your Most Valuable Asset
 - Integral part of everyday life
 - City's largest financial asset
- Claremont road network value
 - 132 miles paved
 - 20 miles gravel
 - Pavement \$90/ton
 - Gravel \$25/ton
 - \$63,507,019, total value of the network
 - Annualized depreciation at 20-year life \$3,175,351
 - The life cycle used to be 20 years and it is now about 15 years. The liquid asphalt, which is from the bottom of the barrel in the refining process has gotten worse. Another factor, traffic has significantly changed in regard to volume and loads.
- Claremont Road Network by the Numbers
 - 132 miles of paved road > \$60 million replacement value
 - 20 miles of gravel road > \$2.6 million replacement value
 - Total Road Network > \$63 million replacement value
 - Using average 20-year lifespan of a road – annual depreciation of the network > \$3.1 million
 - At 2019 spending level of \$434,000 – annual investment level of 0.68% of network value
- Life of Pavement
- Strategy Comparison
 - Need to do more frequent maintenance = less costly
- Worst First – Fix it First Not Best Fiscal Policy

- Life of Pavement and Pavement Condition
 - \$1 of preventive maintenance early on eliminates or delays spending \$8 - \$10 on rehabilitation later
- Importance of Good Prep Work
- Pavement Maintenance Techniques
- Pavement Network Evaluation
- Network Approach Concept
 - Every mile of road ages (deteriorates) by 1 year each year (a “mile-year”)
 - For every mile of road in your network, you must preserve/extend the network life by one mile-year through treatments each year
 - For Claremont’s 132 miles network, you must gain at least 132 mile-years of life through work each year to maintain the current network condition
- Every Treatment Has...
 - Equivalent Annual Cost
- Claremont Strategy Comparisons
 - Three levels of funding:
 - Historic budget - \$250,000
 - 2019 budget - \$434,000
 - Requested budget - \$750,000
- Strategy 1 (Reconstruction & Repair) at historic budget (\$250,000)
 - 1.25 miles; 15 mile-years
- Strategy 2 (Repair & Preserve) at historic budget (\$250,000)
 - 5.25 miles; 34 mile-years
- Strategy 1 (Reconstruction & Repair) at 2019 Budget (\$434,000)
 - 2.75 miles; 32 mile-years
- Strategy 2 (Repair & Preserve) at 2019 Budget (\$434,000)
 - 8.75 miles; 58 mile-years
- Strategy 1 (Reconstruction & Repair) at requested budget (\$750,000)
 - 5.00 miles; 56 mile-years
- Strategy 2 (Repair & Preserve) at requested budget (\$750,000)
 - 13.75 miles; 99 mile-years
- Summary & Take-aways
 - Based on Claremont’s network asset value, all funding levels shown are significantly below the annual depreciation value
 - A Reconstruction & Repair strategy severely limits the roadway miles Claremont can maintain annually
 - A Repair & Preserve strategy provides the greatest return on investment and maximizes the miles maintained
 - Utilizing a Repair & Preserve strategy with a \$750,000 budget gets the closest to maintaining the current network condition

Mr. Morris said it is important for the Council to know the City is moving toward the Maintenance First Program which means Councilors may get calls asking why the City is maintaining roads that were just paved.

Mayor Lovett said as a gear-up for budget season, that she would like to know what the price tag is for doing maintenance to keep roads preserved. What amount of money needs to be put in the budget for some of the roads that have gone past the point of no return.

City Manager Goals

City Manager Goals

At the December 11, 2019 City Council meeting the Council started discussing City Manager goals for 2020. Near the end of the session Councilor Elect Contois mentioned the SMART goal concept.

Specific – state what you will do with action words

Measurable – provide a way to evaluate success

Attainable – Possible to accomplish (may need to be broken into smaller segment).

Relevant – within your functional ability and will make organization better

Time Bound – specific but realistic timeframe

I had planned on discussing this concept as well as making sure the Council works with City Staff to create action oriented and measurable goals. I have taken the liberty to document these goals and added some strategic priorities to help the conversation as we create measurable action items:

- Reducing blight by focusing on dilapidated properties and absentee landlords.
- Continue good Council communications and increase public communications by:
 - Completing new user friendly website.
 - Creating and implementing a City social media program.
 - Creating a Citizens Academy.
 - Creating a plan to transition to a digital records management system.
 - Increasing transparency by:
 - Posting bid documents to the website.
 - Work with Department Heads and Council to create:
 - Strategic goals using the City's Master Plan, CIP, and Council Direction.
 - Meaningful performance measures for each department.
 - Start the transition to a project based budgeting system.
- Continue fostering relationships with employees, council, businesses, and citizens.
- Analyze and properly structure staff:
 - Complete compensation study including an implementation plan.
 - Fill Assessing position, or complete a long term plan for the Assessing Department.
 - Assess all City Departments and work with Council to restructure where necessary.

- Create a long-term infrastructure replacement and maintenance program.

Ed Morris

Mr. Morris said he went through this in December and thought it was a good idea to bring it forward to get input from the new Councilors.

Ms. Matteau referred to the Strategic Planning Session hosted by Primex and thought the three goals they came up with were a perfect place to start.

There was a discussion about having a retreat to work on this. Mr. Morris said after the Council determines a strategic plan, to look at the cost to bring in someone to help with a full City strategic plan.

Mr. Koloski is not in favor of bringing in a paid consultant to the retreat.

A motion was made by Ms. Kier and seconded by Ms. Matteau that the Council have a retreat to go through the structured process learned at the consulting session, and to have Mr. Morris there and any other Department Heads he feels would be beneficial. No paid consultants. Date to be determined in March.

Voice vote: motion carried 8-0.

Legislative Updates

Mayor Lovett:

- Bill regarding rooms & meals tax for sales of ski tickets. Bill was killed.
- Lead – 2 bills we are watching: HB1359 and SB599. Claremont Lead Action Team met today. She will give the amendment to the Council. Hearing is next week.
- SB599 relative to testing for lead in water in schools and child care facilities, has bipartisan support. It would be helpful if the Council had a position on this. Bill not scheduled for hearing, yet.
- Several bills on tax exemptions & credits. All voted ITL (inexpedient to legislate), so they are not going anywhere.
- SB562 relative to a property tax relief program for repairs and updates of affordable older homes, would be helpful for communities like Claremont. If passed, would give another tool to help people to renovate their homes.

She will keep Council posted.

NEW BUSINESS

Accept Donation of Smoke Alarms from Rexel Group Company

Fire Chief Bryan Burr said this will help to continue their efforts of installing smoke alarms in single family homes.

A motion was made by Ms. Kier and seconded by Mr. O’Hearne to accept with sincere appreciation a donation from Rexel Group Company of 50 battery powered Kidde brand, model i9030 smoke alarms, valued at \$260.00, for the Claremont Fire Department.

Voice vote: motion carried 8-0.

Resolution 2020-16 Over-Expend Airport Budget – Public Hearing

BE IT RESOLVED by the Council of the City of Claremont, New Hampshire, after public hearing duly noticed, to over-expend the 2020 Airport budget, Account #01-472-360-0000, as approved, by up to \$40,000 for the purchase of aviation fuel, such expense to be offset by increased revenue from the sale of aviation fuel, with no impact on the tax rate.

Such department over-expenditure shall not exceed the total bottom line appropriated for 2020.

BE IT FURTHER RESOLVED that the City Manager or his designees are hereby authorized to execute all documents and undertake all actions as may be required to implement this resolution. *(2/3 Vote Required)*

Chief Burr said this request is to increase the line item for fuel. Fuel sales have been great. Pilots are flying in from other communities because Claremont has the lowest fuel prices in the area.

A motion was made by Ms. Kier and seconded by Mr. Stone to adopt Resolution 2020-16 Over-Expend Airport Budget.

Ms. Kier read the resolution into the record.

Mayor Lovett opened the public hearing. No one spoke. She closed it.

Chief Burr said the lower fuel prices attract pilots to Claremont and when the new terminal is complete, that will also bring in pilots. He likes to fill the fuel tank in December, January, and February when fuel prices are typically lower.

Roll call vote:

O’Hearne - yes

Kier - yes

Sweetser - yes

Damren - yes

Matteau - yes

Koloski - yes

Contois - yes

Stone - yes

Lovett - yes

Motion carried 8-0

Discuss Planning Board Change from 1/22/2020

Mr. Morris said this came about after Council's discussion last meeting. The section that talks about the membership of the Claremont Planning Board is in Appendix H - Claremont Planning Board Rules of Procedure. Per RSA, rules and procedures of the Planning Board are to be set by the Planning Board. He contacted legal counsel and the Planning Board is seated in a legal manner. We do not need to go through an ordinance change as this is not an ordinance, but a rule. There is recommendation to move this rule into Section 211-6. We should work to make that change into an ordinance and then have the Planning Board readopt its rules.

Mayor Lovett asked if this will be done at the Policy Committee level. Mr. Morris didn't think it needed to go to the Policy Committee. He said it is a pretty easy change; he will work this up as an ordinance and bring it back to the Council in March.

Council Rule Change

At the January 8, 2020, Council meeting, Mr. Koloski presented to the Council his written proposal to change Council Rules. He read his proposal: "Upon placement of an item on the Council agenda, a notation must be added to each item to indicate who requested such item for background. Examples: City Manager, Councilor _____, Majority Council, Department Head, Mayor, Department."

Mr. Koloski said when something is published on an agenda, he doesn't know who to go to for answers when citizens ask for information. Also, sometimes people say their requested items don't appear on the agenda.

Mr. Morris said if it comes from City staff, he would like it to state City Manager. Councilors agreed.

Councilors agreed that agenda items placed under New Business will have the name of the person requesting that item.

A motion was made by Mr. Koloski and seconded by Mr. O'Hearne that upon placement of an agenda item under New Business, a notation must be added to each item to indicate who requested it.

Roll call vote:

O'Hearne - yes

Kier - yes

Sweetser - yes

Damren - yes

Matteau - yes

Koloski - yes

Contois - yes

Stone - yes
Lovett - yes
Motion carried 9-0.

COMMITTEE REPORTS

Mayor Lovett said the Finance Committee will send its recommendations to the Council at the next meeting.

Mr. Stone said the Policy Committee is looking for priorities from the Council. They would like to get the donation policy done. Also, they are working on the lead policy and tax credits (waiting for information from the Finance Committee). Mayor Lovett said the Finance Committee's recommendation was to freeze the tax credits this year at Mr. Hamilton's recommendation, 6.52% increase for income and asset limits. The Finance Committee's report will be sent to the Council. Mr. Stone requested a priority list from the Council.

Mr. Koloski asked if there is a way for the Policy Committee to enlist some other people (sub-committee) to look through the Codes to quickly identify outdated ones and to send them to the City Manager to be forwarded to department heads for review.

Mayor Lovett suggested when Council has its retreat to discuss goals, the Council should marry-up the Committee's work based on those goals.

FUTURE AGENDA ITEMS AND DIRECTIVES

Mr. Koloski asked at what donation level an item doesn't have to go to the Council for approval. Mr. Morris said up to \$5,000 in cash and for actual items, every one of them needs to go to the Council; that's one of the changes we are working on.

Mr. Koloski would like an update on the Rail Trail. Mr. Morris said that's part of the grant. He can give an update.

Mr. Koloski asked about the TV in Central Collections. Mr. Morris said it's for monitoring the solar production, but it's not working right now.

Mr. Koloski asked if the member, that is on the Board of Assessors and the Historic District Commission (HDC), has resigned his seat on the HDC. Mr. Morris will check.

Mr. Koloski asked about the status of the Airport Fixed Base Operator agreement. He said in prior year(s) (2014, etc.) it has come to the Council for approval.

Mr. Koloski asked about adding Airport fees to the Fee Schedule.

Mr. Koloski would like to discuss several open board seats for Councilors.

Mr. O'Hearne would like a list of boards and when they meet.

Mr. Stone talked about appointing an Airport Advisory Board Council member. Mayor Lovett said that can be done in the same meeting with the Planning Board appointment.

Mr. Morris gave an update regarding Mr. Koloski's question whether it could be one Councilor or the whole Council vote on a veto of the Merit Plan promotion or change. In the Charter, under Article 4 Merit Plan, #51 Rules and Regulations, it does say in the last sentence, it shall become effective one month after their submission unless vetoed by the entire Council. He said he will take comments from Councilors.

Mr. O'Hearne said he is disappointed about the City's lack of advertising for the Presidential Primary, however, the electric sign at the Police Department showed a reminder for the School vote for one and a half weeks.

Mr. Contois said on January 22, he received an email about APC Paper regarding trucks being broken down in the road. Mr. Morris said he is rescheduling a meeting with APC Paper and when he does, he will discuss it with them.

Mr. Koloski asked about the process for volunteer recognition. Mayor Lovett said that would be good for the Council to discuss (criteria, nomination, etc.) at the first meeting in March.

CONSULTATION WITH LEGAL COUNSEL

None

ADJOURNMENT

At 9:50 p.m., a motion was made by Ms. Matteau and seconded by Ms. Kier to adjourn.

Voice vote: motion carried 7-1 with Mr. O'Hearne voting no.

Respectfully Submitted,

Dorée M. Russell
Clerk to the Council
