CITY MANAGER’S REPORT

Mr. MacLean made note of the three handouts that were given to Council this evening. One is a possible motion for rail trail use at 13 Edgewood. The second handout is a memorandum from Finance Director Ms. Richmond for the clerical union formula. The last handout is an article given by Andy LaFreniere who is our energy broker, Mr. MacLean noted energy costs will play a significant part in our budget.

Mr. MacLean gave an update to the Council relative to the upgrades for the Opera House stairs that Councilor Koloski at the last City Council meeting asked for repairs. Mr. MacLean stated Bill Willette will attend the next Council meeting to go over in detail all of the upgrades that are being addressed.

Mr. MacLean noted the ARPA funds that would have been used for HVAC issues and roof repair can only purchase materials that are U.S. made. Mr. MacLean stated an adjustment relative to the ARPA funds may need to be made.

Mr. MacLean asked the Council to let Mr. LaFreniere give a brief presentation on energy.

Andy LaFreniere, Ward 3, is an energy consultant and has been working in such capacity for thirteen years, and has worked with the City for eleven years. Mr. LaFreniere gave an overview of electricity procurement, and gave recommendations on fixed rates, block and index approaches

Councilor Koloski shared concern for this subject being brought into Council on short notice. Councilor Koloski would rather see this as an agenda item.

Mayor asked for Consensus to move this item to a future agenda.

Mr. Tyson suggested installing bioreactors to produce methane, methanol, diesel, and hydrogen. Mr. Tyson noted Casella operates a similar facility in Connecticut that is fed with organic waste from Vermont. Mr. Tyson explained the gases that are produced can be used for transportation fuels, and electricity.

Chris Fazio, Ward 3, stated he had just purchased a house. Mr. Fazio relayed to the Council that the reason for being at the Council meeting is to request more “no parking” signs on Shannon Street. Mr. Fazio noted that cars are illegally parked on Shannon Street which has led to many children and parents cutting across his lawn.

Andy LaFrenier, Ward 3, noted to the Council that City energy usage is down 30% from just a few years ago, and that the City should be commended.

Rail Trail Use – 13 Edgewood

Ms. Merrill explained there was a piling of dirt near the edge of the City-owned Rail Trail. Subsequent investigation revealed that Aaron Feustel, owner of the property at 13 Edgewood Street, had been digging out his basement and depositing the dirt at the base of the hill behind his house, thus creating the pile.

Ms. Merrill noted funding is scheduled to be received this summer, these funds will improve sections of the rail trail.

Aaron Feustel, Ward 1, explained to the Council that two years ago a permit was submitted to fix his foundation. Mr. Feustel noted spending 2 years putting dirt down there into the bank and would need more than six months to remove.

Mr. MacLean suggested tabling this discussion tonight and to have Parks and Recreation along with the DPW to give an estimate on a time frame for removal of the dirt pile.

Councilor Contois- wants to make sure Director Merrill is included in this group.

By consensus the Council moved this item to the June 22nd Council meeting.
